COMMANDER'S REPORT:

Air Force Safety Center Directs "Integrated" Global Effort With Aerospace Age Stress On Nuclear And Missile Dangers

by
MAJ. GEN. PERRY B. GRIFFITH
Deputy Inspector General for Safety
U. S. Air Force

(Editorial Comment, Page 10)

WHILE aircraft and ground accidents in the Air Force have decreased steadily during the past decade to all-time record lows, and our prevention efforts in these areas are being pursued around the clock without respite, the aerospace age has dictated the need for a new approach to safety geared to potential accidents in the missile and nuclear fields. This new approach or concept is called "integrated safety."

The national and international ramifications that could result from even the smallest nuclear yield accident have made it mandatory for the Air Force to revise and beef up its

across-the-board accident prevention program, to eliminate bottlenecks and increase reliability—in both the human and the machine.

With safety regulations and procedures approved by the President as our mandate, no stone has been left unturned to insure against every conceivable possibility of an inadvertent or illicit detonation of a nuclear weapon where there might be a nuclear contribution. In nuclear safety, the accident rate has been, is, and must continue to be "Zero." There is no other acceptable statistic.

Coupled with this goal is a second objective—to reduce the number of incidents, and accidents where there is no nuclear yield, to an absolute minimum. There have been some aircraft accidents and other handling mishaps in recent years involving atomic bombs; but in every instance, the safety devices used to prevent nuclear yield were 100 per

REPRESENTATIVE KILDAY FORECASTS:

Dual Pay, Survivor Law Changes; 20-Year Retirement Bar Unlikely

THE number one military pay authority on Capitol Hill predicts that the next session of Congress will equalize service pay, reevaluate survivor benefits, amend dual compensation restrictions, and retain the right of officers to retire after 20 years service.

These are the forecasts of Representative Paul J. Kilday (D-Tex.), second-rank-

ing majority member of the House Armed Services Committee.

He presented these views during a visit to the Brooke Army Medical Center at Ft. Sam Houston, Tex.

Representative Kilday said that pay equalization should pass during the next session of Congress.

He noted that survivor benefits are complicated by disparities between regulations for Regulars, National Guardsmen, and Reserves, and said there must

—Continued on page 29

HUNDREDS AFFECTED:

Comptroller's Action Means Pay Boosts

HUNDREDS of officers who retired before 1 October 1949 for physical disability may receive pay increases.

The Comptroller General has authorized them to switch from one method of computing retired pay to another.

They have been authorized to recompute their retired pay under either the percentage of disability or total years service provisions of the Career Compensation Act of 1949.

Until 1955, they were allowed to

Navy Missile Range Chief Visits Redstone Arsenal

RADM. J. P. Monroe, Commander of the Pacific Missile Range at Pt. Mugu, Calif., visited the Army Ordnance Missile Command at Redstone Arsenal, Ala., to discuss Army plans for missile tests at PMR with Maj. Gen. August Schomburg, CG. The Army shortly will begin tests of its Nike Zeus anti-missile missile system at PMR with firings scheduled at both Pt. Mugu and Kwajalein Island in the South Pacific.

AF TELLS ALL:

Army Lists Choices; Navy Names Board

(Army Selects 3715, Page 4)

THERE was tri-Service action on the promotion front to oak leaf rank this week.

The Army, after several weeks delay, released the names of 3715 captains selected for promotion to temporary major.

The Navy (see Page 7), in accordance with the policy that it shares with the Marine Corps, announced the names of selection board members considering officers for lieutenant commander.

The Air Force, anxious to keep the field fully informed as quickly as possible, disclosed the results of its selection board action to major. Subject to last-minute changes before the list is approved officially and published in December, the Air Force will promote 5811 line captains to temporary major.

There were 2264 Air Force line officer passovers.

The Army, in response to inquiries,

THE ARMY-NAVY GAME: A SUGGESTION

EARLY in November a great contest will be decided when the Nation votes for a new President.

Later next month, on 26 November at Municipal Stadium in Philadelphia, there will be another kind of battle. This struggle is, of course, the Army-Navy Football Classic.

To President Eisenhower, who must bend no knee when it comes to direct knowledge about Service Academy football, we make a most respectful suggestion.

Why not, now, before 8 November, invite both Vice President Richard M. Nixon and Senator John F. Kennedy to join the Chief Executive at the game.

The presence of General Eisenhower and the two WWII Navy Officers—one then will be President-elect—at the Army-Navy Game would be a dramatic demonstration to the nation and to the entire world of good sportsmanship and most importantly, the unity and determination of the American people to maintain peace through strength.

How they play the game is always a watchword at West Point and Annapolis. This year, it could be equally important who watches them play.

Nuclear Dangers Accent Need For Single AF Safety Agency

From first page—

the Deputy Inspector General for Inspection at Norton AFB, Calif.; and, in addition, missile safety or what there was of it at that time, also came under this agency.

Atomic Controls

It was during this period that nuclear carrying missiles—the Thor, Atlas, and Genie—began reaching the operational inventory, and it became readily apparent that stringent controls already in effect would have to be made even tighter if an inadvertent disaster of the first magnitude was to be avoided. Since a missile actually represents a wedding of ground, nuclear, and flight operations as well as missile operations, it was obvious to the Chief of Staff that the only way to get to the root of a safety problem in any area in a hurry would be to establish a single agency with Air Staff responsibility for all accident prevention programs in the Air Force. As a result, the Vice Chief of Staff, General Curtis E. LeMay, directed the formation of an Ad Hoc Committee at Air Staff level to study the overall problem and make recommendations. The committee's findings were submitted in March 1959 and just two weeks later the VCS issued a memorandum ordering the establishment of a new office under The Inspector General to be designated the Deputy Inspector General for Safety. The memo further directed the consolidation of safety functions and ordered manning to be accomplished on a priority basis.

My predecessor, Maj. Gen. Joseph D. Caldara, was assigned the task of initial organization with offices in Washington together with an Assistant for Ground Safety and an Assistant for Flight, Missile, and Nuclear Safety. The Director of Nuclear Safety Research at Kirtland AFB and the Directorate of Flight and Missile Safety Research at Norton AFB were constituted as field extensions. Explosive safety remained an AMC function.

Integration Action

During the first year of operation of the new organization (known within the military as the 1003 Inspector General Group), it became apparent that centralizing responsibility for the Air Force safety program, alone, was not going to be sufficient—it also would have to be "integrated" if the Chief of Staff was to have one agency truly responsible for Air Force safety. This was dictated by numerous factors, primary among which was the fact that the aerospace age had brought an overlapping of functions in the four basic safety areas with resultant problems of duplication, coordination, jurisdiction, research, reporting, manning, and administration. Geography and communication also were factors.

The decision was made by The Inspector General, Lt. Gen. Joseph F. Carroll, and further steps were taken to effect integration beginning in July of this year.

I think General Carroll's definition of "integration" is the most appropriate I've heard yet. Militarily speaking, he said it "generally means welding several elements into a single force for purposes of simplicity, improved reliability, and increased performance—without sacrificing efficiency or identity of the

individual elements."

We also had two key parameters imposed by General LeMay in line with current USAF management policies. The reorganization had to be accomplished without any increase in total personnel, and the ultimate organization was to have less compartmentalization. In addition, we would not depart radically from workably established procedures and investigating techniques until time and experience under the new organization indicated the desirability of such.

As the records show, Norton AFB was

selected to become the "Safety Center of the Air Force" due to several reasons, including economics, availability of facilities, geography, and the fact that much of the nation's aerospace industry is located in the West. Reorganization and integration not only were accomplished without any increase in manpower but also with only a small expenditure of funds for personnel transfers and office remodeling.

My office and the Assistant for Ground Safety were moved from Washington to Norton, while the rest of the Washington

functions were absorbed in the Air Staff or eliminated. Only 27 of our Pentagon staff actually made the move, as additional spaces for missile and nuclear safety, for the most part, were taken from the old Directorate of Flight and Missile Safety Research. At that time, also, explosive safety responsibility and the personnel involved were reassigned to our ground safety office.

Today, the Office of the Deputy Inspector General for Safety at Norton includes the Directorates of Flight Safety

Nuclear claws for a new breed of

Capt. Russell Heads Fleet Air Safety

Capt. Hawley Russell, former Commanding Officer of the Anti-Submarine carrier Valley Forge, has assumed duties as Aviation Safety Officer on the staff of VAdm. W. L. Rees, Commander Atlantic Fleet Naval Air Force.

Captain Russell is the husband of the former Dallas James of Scituate, Mass. They have three children, James, 18; Jeff, 17, and Lane, 12. They currently reside at 161 Bruton Lane, Virginia Beach, Va.

3d AF's Bomb, Fighter, and Recon Wings Serve All NATO From UK

48th Tactical Fighter Wing RAF Lakenheath

COL. Victor E. Warford, wing commander, believes that, except for housing, the 48th has the best USAF base in Europe. Furthermore, he believes it has the best maintenance in the United Kingdom.

A visitor is impressed also with the fact that Lakenheath is an important American community, for in addition to its 3,000 military population (7,500 with families), it operates one of the two

LAST week's JOURNAL carried a report on Maj. Gen. Ernest Moore's Third Air Force from a staff member visiting in the United Kingdom. Herewith are additional reports from three different, but typical, wings of the Third which were visited by THE JOURNAL's representative. They are typical of the Third because they all hum with the constant throb of instant combat readiness while at the same time they are busy making liveable homes for thousands of military families and being good neighbors to their English hosts.

U. S. senior high schools in the UK (the other is in Bushey Park, London), where it boards and houses students from all of East Anglia, and runs a junior high school and elementary school, with a

total of about 1,500 students.

In addition it maintains a large area hospital, five or six times the size of a normal wing hospital, plus a dispensary. Further, it is funded for a new \$3 mil-

lion 125 bed hospital construction of which will begin in January. Truly, the base commander, Col. Evans G. Stephens, is busy with diversified activities.

The 48th fights with North American F-100 Super Sabres, 12 of which are on constant alert with ready crews in the alert enclosure 24 hours a day. The wing has 62 F-100Ds and 12 F-100Fs, the latter being the two place version. In addition they now have four Lockheed T-33s and two Douglas C-47s. The total assigned strength, 80, is just four short of the authorized strength which allows 63 F-100Ds and seven T-33s.

When Colonel Warford characterizes Lakenheath as a top base he has in mind the wealth of buildings on it. These include 23 maintenance shops, 10 hangars, 21 warehouses, 25 administration buildings, 105 dormitories for single men, 8

ed of Falcons

The Hughes Falcon GAR-11 is the first air-to-air guided missile to pack a nuclear punch.

Developed by Hughes, the "Nuclear Falcon" adds a major new weapon capability to our defense arsenal. A weapon that can down any bomber in the skies.

Because of its heavy blast intensity and high degree of accuracy, the "Nuclear Falcon" is particularly effective in high-speed closures against bombers carrying the deadliest of weapons.

The Falcon family has proven itself in operational service—every modern U.S. all-weather interceptor carries Falcon missiles. In simulated tactical firings Falcons have achieved unexcelled records for accuracy and reliability.

Like other Hughes weapons, systems and components, the Falcon is a product of Hughes' unique capabilities in virtually every area of advanced electronics. These include projects in space systems, airborne control systems, microwave communications, data processing and display systems, ASW systems, radar and IR detection systems—and many others.

These advancements in the state of the electronic art are based on foresight, imagination, and proven management capability. Their reliability and operational capabilities have earned them the confidence of users throughout the free world.

Larger than earlier Falcons, yet small considering its nuclear capability, the GAR-11 is 7 feet long, 11 inches in diameter and weighs slightly more than 200 pounds.

USAF In UK

COL. Victor E. Warford, 48th TFW commander, presents a copy of the "Statue of Liberty" Wing year book to THE JOURNAL's Editor-Publisher, LeRoy Whitman, on the occasion of the latter's visit to RAF Lakenheath.

recreation buildings, and 467 miscellaneous buildings including 223 sets of married quarters. Not all of these are first class. The dormitories, for example, are quite poor, but they are usable.

The housing shortage means that many of his officers and key NCOs live from 15 to 30 miles away making necessary an elaborate call system to bring them in in an emergency. "Tobacco" housing is bringing 45 new sets on the base, construction of which will start shortly and 300 more are to be built at Methwold 11½ miles away, but the latter are two years off.

Lakenheath's potential as a USAF base is being further emphasized by the construction program now in progress to expand its facilities for fuel and oil storage. It now has a capacity for 1.2 million gallons of POL, but this is being expanded to 5.4 million. This increased POL capacity will not only permit it to enlarge its own wing in time of war, but also to recover and refuel SAC aircraft.

Atomic Support

A tenant on the base is SAC's 99th Munitions Maintenance Squadron which supports missiles in the RAF, assists in training RAF, and supports the wing's atomic program.

The 48th has three tactical fighter squadrons, the 492d, 493d, and 494th, commanded, respectively, by Maj. John J. Innis, Lt. Col. Francis E. Binnell, and Lt. Col. Bernie S. Bass. On the base also are the 48th Consolidated Aircraft Maintenance Squadron commanded by Maj. Stanley R. Wilkinson, Jr.; 48th Armament and Electronics Squadron, Maj. Charles M. Mooney; 48th Tactical Hos-

M/G Butchers Will Be Army Provost

MAJ. GEN. Ralph J. Butchers will succeed **Maj. Gen. Haydon L. Boatner**, who retires 31 October after more than 36 years service as Army Provost Marshall General.

General Butchers, who has been CG of the Army Training Center (Armor), Ft. Knox, Ky., is a USMA '26 graduate. During WWII, he served with the 2d Armored Division in North Africa and Sicily and later served as Assistant Chief of Staff, G-3 (Operations), of the II Army Corps in Italy.

He was graduated from the National War College in 1952 and in 1953 was named G-3 (Operations Officer) of Armored Forces Far East. In April, 1956 General Butchers was named Assistant Commander, 7th Infantry Division, in Korea. He returned to this country and in February, 1957 was assigned to the Army Council of Review Boards, Washington, D. C.

General Butchers was named Chief of the Army Audit Agency, Office of the Army Chief of Staff, Washington, in May 1957 where he served until assigned to his present position in April 1959.

LACROSSE "FIRST"

The first Lacrosse missile firing at Ft. Sill, Okla., is announced by Maj. Gen. Verdi B. Barnes, Army Artillery and Missile Center Commander.

After performing as planned, the missile was checked in flight by the in-flight safety officer, who destroyed the Lacrosse just before impact to test a safety device. The safety device is designed to destroy the missile in the event of malfunctions during flight.

The firing from Sill was made possible through the development of new safety features incorporated into the Lacrosse weapons system.

General Barnes said it will be possible now for training units to receive actual firing tests on the Sill ranges.

A missile crew from the 5th Msl. Bn., 41st Arty., commanded by Maj. William W. Waters, prepared the missile for the mission and fired it. The 5th of the 41st Arty. is part of the 52d Arty. Gp. commanded by Col. Walter E. Brinker which is assigned to the U. S. Army 1st FA Msl. Bd.

Digh, Ned F, Ft Campbell.

Air Force Nuclear-Missile Safety Program Must Be On Guard Against "Fidgety Freds" And Saboteurs, General Griffith Warns

From page 2—

Research and Missile Safety Research; Assistants for Ground Safety, Life Sciences, Education and Training, and Records and Statistics; and an Executive Officer. Due to its unique responsibilities, the Directorate of Nuclear Safety Research was left at Albuquerque, where the bulk of the nation's nuclear activity is centered.

We have an authorized strength of 307 personnel of which 52 are assigned to Kirtland. This total includes 128 officers, 30 airmen, and 149 civilians. Incidentally, most of our officers and airmen and all of our civilians are handpicked for professional ability and experience in their particular field of endeavor.

"Hot Line" Action

A "hot line" telephone connection and a handful of personnel in Washington are used to maintain close liaison between myself, General Carroll, and other Air Staff offices in the Pentagon. The telephone is tied into the Pentagon Command Post for almost immediate notification on all major accidents and incidents around the world.

There already have been numerous benefits from integration. In addition to more effective utilization of available resources, we have consolidated efforts in the fields of safety education, training, statistics, reporting, human factors, planning, programming, and administration: all achieved by the aforesaid actions.

However, I will be the first to admit that organization alone does not prevent accidents. People cause accidents and people must prevent them!

"Fantastic" Gain

The Air Force accident picture has consistently and dramatically improved year by year. At the present time, we have an aircraft accident rate that 10 years ago would have been considered fantastic (5.9 major accidents per 100,000 flying hours to date this year vs. a rate of 36.0 in 1950).

A global program to prevent industrial, motor vehicle, recreational, and many other types of ground accidents also is paying off. Fatalities among USAF military personnel due to ground accidents during the first four months of 1960 were down 20 per cent as compared to the same period last year.

Regardless of our progress in ground safety, ground accidents still represent the Air Force's greatest killer and crippler. In 1959, for example, we lost 636 personnel due to ground accidents as against 375 in aircraft mishaps. Motor vehicle accidents alone last year were responsible for 476 Air Force fatalities, while drownings and water sports accounted for another 51 deaths.

Although our Air Force drivers have a better safety record than their civilian counterparts (including the critical 18-24 age group), we're doing everything possible to reduce this waste of combat potential. It's a frightful loss when a pilot dies on Highway 66. Those of us who own homes know only too well that indifference or carelessness around do-it-yourself machinery can be fantastically debilitating.

Nuclear Emphasis

But let's not fool ourselves. The dynamic and problem-posing areas of the

future lie with nuclear and missile development, and this transcends the military. They involve the civilian populace as well. The fact that no catastrophic nuclear accidents have occurred does not necessarily mean that we are doing all that can be done in our prevention efforts in this field. However, I was in the nuclear business for eight years, and I can assure you that there are so many safety features ground into our programs that any accident can almost be forecast to be the result of human factors or frailties.

The Air Force looks upon this whole spectrum of safety as one that has overriding importance, particularly in times of peace—or at least the questionable peace we live in today. The basic requisites of safety are dictated by four problems:

- Natural accidents.
- Psychotics or saboteurs.
- Security.
- Human error.

Reduced to simple terms, it is obvious that if every man were infallible and every machine 100 per cent efficient, a planned or by-chance action would be consummated absolutely without error. This, of course, was not the design of the Creator. Acts of God, i.e., thunderstorms or hurricanes, cannot be controlled, but they can be reckoned with in our planning. What we must constantly guard against are the malicious psychotics or saboteurs—the fidgety Freds who can't resist the impulse to pull a switch, and the snakes-in-the-grass who do not love our country. Finally, we must do all we can to minimize accidents caused by human frailties as well as those due to design or mechanical malfunction.

This Is Mission

To this end, our mission, when translated into non-technical language, sounds something like this:

- We must not endanger our people or our Allies by allowing an inadvertent detonation of a nuclear device resulting in nuclear yield.
- We must minimize the chances of our military and civilian personnel becoming involved in time-consuming, costly, useless, and often fatal ground accidents.
- We must keep the low rate of aircraft accidents where it is now and, if possible, reduce it still further.
- We must not allow mishaps to our missiles to become operationally significant.

I, personally, am answerable to General Carroll and he, in turn, to General White for the promulgation of policies, practices, controls, and follow-up, to be sure that certain checks are in force—worldwide—to execute the Air Force mission economically yet effectively.

The 17 major commands of the Air Force look to us for after-the-fact analyses of all accidents, but it is my studied opinion that before-the-fact prevention is more important than follow-up investigation. General White has recognized this philosophy by imposing on our missile and nuclear safety people a task that, if successfully accomplished, assures him that all units charged with executing the war plan are ready and

equipped to perform their mission should the balloon go up.

Safety Survey Concept

One of the primary tools employed in providing an adequate nuclear safety program in the Air Force is the safety survey concept. This surveillance activity of manned aircraft and missile units having nuclear capability is conducted, at regular intervals. In addition, we make spot and scheduled surveys of other flying activities, ground functions, and missile sites. The things we flush out are salutary to the commands and make for more perfect unity in our overall safety program.

As I stated earlier, organization alone does not prevent accidents. In the Air Force, the safety officer in the field is the most important member of the prevention team. He should be a part of the commander's personal or special staff, regardless of the level of command. The number of doors he must open to attract the boss's attention will determine to a great extent the success or failure of his unit's safety program. I fought this battle of philosophy in my last job. My safety officer was located somewhere down the line and answerable to another person, but I, as a division commander, was the fall guy in any event. When he was placed directly under me, we really got results.

This is not to minimize the role of a commander. Inherent with the assumption of command is the aforementioned responsibility for accident prevention. His success depends on the personal attention and direction he gives to it, but he cannot be expected to do the job by himself, even though it is his ultimate hide if things go wrong.

Four-Hat Task

More and more of our safety officers in the field are having to wear four hats—flight, ground, missile, and nuclear. And to be effective, they not only have command support but they must also get out of the office to where the activity is. They must know the frailties of fallible man with whom they work. They must search, seek out, and observe. I've seen some expert accident investigators who were the poorest of safety officers. Why? Because they became expert by investigating rather than in preventing accidents.

In summary, I am well pleased to date with the Air Force's integrated approach to its safety mission, and I feel that our people are dedicating themselves wholeheartedly in their labors to save lives, dollars, and machinery. We simply want to get the most mileage out of our trained air and ground crewmen, our missile and nuclear operators, and to teach our airmen to live longer by refraining from off the job accidents, slipping on a bar of soap in the bathtub, or turning a bend in the road when indeed there wasn't any.

Although we are in the Office of the Inspector General, we are not inspectors in the old sense of the word—the fellow who looks under the rug and asks the squadron commander if he has a slush fund. When we go into the field, we are out to help. Because of this philosophy, the reactions of Major Commanders and on down the line have been most gratifying. I think the program is almost in after-burner.

THE record-breaking "One X" Chance Vought XF8U-1 Crusader was presented to the Smithsonian Institution's National Air Museum in ceremonies at Washington National Airport 25 October.

Above, left to right, are: Dr. Remington Kellogg, Acting Secretary of the Smithsonian Institution, who accepted the aircraft from the Navy; Admiral James S. Russell, Vice Chief of Naval Operations, who accepted the plane from Chance Vought and turned it over to the Museum; Mr. Charles J. McCarthy, Chairman of the Board, Chance Vought Aircraft Company, who is shown here presenting the log books to Admiral Russell; and Mr. John Konrad, Chance Vought Chief Test Pilot who was the first man to fly the "One X" and also the last, flying it in for the ceremonies.

The historic Crusader was the first aircraft to set a Thompson Trophy speed record of more than 1000 MPH and the first to span the continent faster than the speed of sound. The Crusader brought the Robert J. Collier Award to the Navy and Chance Vought in 1957.

The latest in the line of Crusaders, the all-weather F8U-2N, capable of speeds twice that of sound, is soon to enter carrier suitability trials. More than 700 Crusaders are on duty with Navy and Marine Squadrons around the world.

U. S. MARINE CORPS ORDERS

Commandant—General David M. Shoup
Assistant Commandant—Lt. Gen. John C. Munn
Chief of Staff—Lt. Gen. Wallace M. Greene, Jr.

COLONEL

READY!

TO FINANCIALLY AID AND PROTECT THE FAMILIES OF THOSE WHO SERVE...

For 81 years—since 1879 the Navy Mutual Aid Association has been providing insurance protection and aid to dependents of deceased officers.

Five different plans of permanent insurance protection (\$7,500 plus \$2,500 terminal dividend) is provided as near to the actual net cost as possible. More than 30,000 of your fellow officers are now sharing in these substantial savings in life insurance and other advantages and benefits so necessary to your family in time of need or death.

*Available to all active duty officers not over 62 years of age of the Navy, Marine Corps and Coast Guard including Reserve Officers on extended active duty.

Benefits in Force \$200,000,000
Assets \$45,000,000

Air Force Tells Selection Details

From first page—

said that 5105 officers were considered in the primary zone for promotion to major, and about 7500 were considered in the secondary zone.

The Army said that the junior officer in the basic zone had date of rank as captain of 31 March 1954. The last man on the list in the secondary zone had a 31 December 1957 date of rank.

The Army was unable to say how many were selected in the basic zone and how many in the secondary zone, and also was unable to give any details on the first and second passovers in the published list.

The Air Force readily supplied the information about the forthcoming list that 7,547 line captains were considered in the primary zone, of whom 5,283 were chosen, including 587 who had previously failed of selection.

In the Air Force primary zone there were 1,497 first failures and 767 second failures.

The Air Force said that in the secondary zone, 1,481 captains were considered and 528 were selected.

In the Air Force components, the run-down was supplied as follows for temporary major (considered/selected):

Chaplains—Primary zone, 64/52; secondary, 78/5; 9 passovers, one for second time.

Medical—Primary, 30/26; secondary, 189/3; 41 passovers.

Dental—Primary, 25/21; secondary, 54/2; 4 passovers.

Veterinary—Primary, 3/2; secondary, 13/1; 1 passover.

Med. Services—Primary, 51/43; secondary, 52/4; 8 passovers.

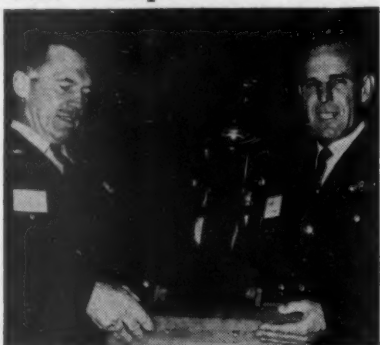

Nurses—Primary, 173/147; secondary, 79/15; 26 passovers.

Med. Specialists—Primary, 8/7; secondary, 2/1; 1 passover.

December Draft Call 8,000

The Pentagon has requested the Selective Service System to provide Armed Forces Induction Stations with 8,000 men for the Army 1-9 December. The November call was 7,000.

Maj. Shoemaker's Team Gets Troop Carrier Award

MAJ. Gen. A. F. Kalberer, Deputy Commander of the Continental Air Command, presents the first place award of the Command's Fourth Troop Carrier Competition to the team captain of the 463d Troop Carrier Wing, Sewart AFB, Tenn. Receiving the award for his TAC Lockheed C-130 "Hercules" team is **Maj. R. C. Shoemaker**. The presentation on 22 October climaxed three days of precision competition flying at Ft. Campbell, Ky.

Selection Results To Col. And L/C

The central USAF Selection Board for temporary promotion of line officers to lieutenant colonel will meet 9 January.

Two weeks later, the line officer colonel's board will convene.

The Air Force this week made known the results of selection action in the components to these two ranks, as follows:

Medical Specialists—No selections to lieutenant colonel or colonel.

Nurses—No selections to colonel; 24 selected from 160 considered for lieutenant colonel.

Medical Services—Out of 70 considered for colonel, 6 were chosen; to lieutenant colonel in the primary zone, there were 17 selections from 21 considered; 2 out of 87 in the secondary zone; 4 passovers.

Veterinary—To colonel, 1 selected from 23 considered; to lieutenant colonel, 3

Greeley, John H, (ChC), Hq Iceland Air Def Frc, MTC, APO 81, NY.
Doonan, Thomas A, dy sta 3387th Tech Tng Sq, Richards-Gebaur AFB.
Herritt, Jack D, 755th Acft Contr & Wng Sq, ADC, Arlington Hgts, Ill.

Fr Arlington, Va to Sta Indicated

Thomas, Tyler, dy sta Det 1 (Bolivia Msn), La Paz.
Brown, Donald D, dy sta Det 2 (Chile Msn), Santiago.
Mickelsen, Robert C, dy sta Det 10 (Nicaragua Msn), Managua.

1ST LIEUTENANT

Gertz, Robert M, Hill AFB, to 6022d USAFH, PacAF, APO 994, SF.

SAC Slates Prep Course For B-58

Beginning in January, SAC officers slated for B-58 pilot training will undergo a four-week intensive instrument course at the ATC's Perrin AFB, Tex., before entering formal training.

The course was established at SAC's request to give potential B-58 pilots familiarization in high-performance delta-wing aircraft.

Pilots will undergo instrument training in T-33 aircraft, transisition to TF/F-102 aircraft, and — following completion — move on to Carswell AFB, Texas, for B-58 training.

Col. McCafferty New Commander At Pope AFB

Col. George O. McCafferty has taken command of Pope AFB, N. C., and the 464th Air Base Group.

Brig Gen. Clyde Box, is 464th Troop Carrier Wing Commander.

Colonel McCafferty succeeded Col. John A. Cosgrove, who retires at the end of November.

Fr Duluth to Sta Indicated

McNally, Robert L, 20th Tac Ftr Wg, AFE, APO 120, NY.
Pottschmidt, L S, 6314th Sprt Sq, PacAF, APO 970, SF.
Kobyak, Roger W, Chicago Air Def Sectr, ADC, Truax Fld.
To 755th Acft Contr & Wng Sq, ADC, Arlington Hgts, Ill:
Bentley, James H, Konyn, Bernard J
Connolly, Gary J

CHIEF WARRANT OFFICER

Slessler, W-2 D R, L G Hanscom Fld, to England.

Bunker Hill JCC Chapter

Bunker Hill AFB, Ind., reports that it has become the first installation in the Armed Forces with an official chapter in the Junior Chamber of Commerce. The charter was granted by National JC President Morgan J. Doughton.

When you need money—
write yourself a loan!
It's just that simple—

With our "CASH-A-MATIC" Plan!

A CASH-A-MATIC PERSONAL LINE OF CREDIT means you can have money whenever you need it without the formality of applying for a loan each time. It's very similar to the European "overdraft" service.

- USE CASH-A-MATIC ANY WAY YOU LIKE — ANYWHERE IN THE WORLD — FOR ANYTHING YOU WANT.
- NO CREDIT CARD IS NEEDED — YOU WRITE YOUR OWN LOAN WITH A PERSONALIZED CHECK.

Write for an application folder today. Address your inquiry to:

Third AF Reaction Time Is Hurt By Housing Shortage

From page 3—

pital, Col. Robert W. Robinson; 48th Air Base Group, Lt. Col. Thomas C. McGuire; Hq., Squadron section, Capt. John P. Klinefister; 48th Supply Squadron, Maj. Peter P. Zwarych; 48th Air Police Squadron, Capt. Kenton D. Miller; 1979th AACs Squadron, Lt. Col. Maxiem B. Seale; Detachment 4, 3d Air Postal Squadron, Capt. Emery C. Ackerman; 48th Installations Squadron, Maj. Thomas T. Jackson; Det. 2, 605th Communications, Capt. Chester W. Mumby; and 48th Transportation Squadron, Capt. Zebulon F. Lewis.

The 48th is the latest wing to join the Third Air Force, having moved last January in a matter of weeks without loss of combat readiness, from Chaumont, France, where USAF gave official recognition to its nickname "Statue of Liberty Wing," making it the only USAF unit to bear both a numerical and descriptive designation.

Colonel Warford, who has commanded the 48th since 4 August 1959, shot down eight enemy aircraft before being shot down himself in WWII, while in Korea he flew 100 combat missions while commanding the 58th Fighter Bomber Wing.

10th Tactical Recon. Wing RAF Alconbury

THE prize winning 10th Tactical Reconnaissance Wing of the Third Air Force, the only U. S. unit in Europe flying 2-engine jet reconnaissance aircraft, was heavily involved in the NATO exercises Flash Back and Hold Fast in which it cooperated with ground forces and other Air Forces in Europe.

Commanded by Col. James D. Kemp, the 10th came in England in August 1959 from its former base in Spangdahlem, Germany. But whereas in Germany it was able to operate all its aircraft from one base, here in England it is able to have only its headquarters plus the 1st and 30th Tac Recon Squadrons here at Alconbury, while its 19th Tac Recon Squadron is located at RAF Station Bruntingthorpe and the 42d Tac Recon Squadron at RAF Station Chel-

Col. Kemp

13 Oct: Johnson, Robert D; Alexander,

veston. To further spread out its activities its schools are at Molesworth.

Bruntingthorpe is 60 miles from Alconbury and Chelveston 29 miles. This, plus the fact that the housing shortage forces 1,500 families to live an average distance of 22 miles from their bases, makes the 10th a rather spread out operation. The housing problem—some live up to 40 miles away—can not help but reduce reaction time below that which they could achieve if all personnel were within the base area.

The dispersion of the bases is a handicap, but careful organization has been worked out to offset it. All operations are controlled from headquarters here. All supplies are consolidated here and delivered to the other bases by truck or light aircraft.

Furthermore, because the 10th operates all over Europe and often uses bases in Europe it maintains a training detachment at Moron, Spain.

A/IC: Savona, Thomas J; Polk, Charles W. A/2C: Dedominicis, Anthony; Henderson, James D; Burke, Percy J; Omoto, G K.

WHERE WOULD YOU LIKE TO LIVE?

Major company has openings in most areas of U. S. for men of executive ability. If you are an officer, regular or reservist, and are looking for a permanent position with highest earning potential when you leave the service, write us. We will finance you while you train. Write Box 246, The Journal.

Colonel Kemp has set up an excellent control complex here which coordinates all of the operation on a giant control board. This is the focal point for all control of flying operations and is the command post for the commanding officer in war or in exercises. It operates 24 hours a day and seven days a week. An Army officer is stationed here as liaison for the Army ground forces in Europe. Col. Robert G. Williams is Director of Operations.

Another complex coordinates all supply and maintenance work, so that the status of maintenance and operational readiness of all aircraft can be checked at any moment. Colonel Kemp claims for the 10th one of the highest states of operational readiness in the Air Force. Col. Cabe C. Hawkins is Director Materiel.

Each squadron maintains an average of 18 Douglas RB-66s. The RB-66 can fly more than 600 miles per hour at altitudes from ground level to 45,000 feet—a high performance capability vital to these lightly armed reconnaissance aircraft. They are powered by two 10,000 lb. thrust Allison J-71 turbo-jets. The photo version of the bomber is flown by the Wing's 1st, 19th, and 30th Tactical Reconnaissance Squadrons while the 42d Tactical Squadron flies the electronic version.

In addition, the 10th uses Douglas C-47s, deHavilland L-20s, and Lockheed T-33s.

During peacetime, the 10th comes under Headquarters Third Air Force, but in time of war it reports directly to NATO. In either situation, it is an integral part of the European Defense System of NATO.

Col. Victor N. Cabas is Deputy Wing Commander and Col. Henry S. Taylor is Commander of the 10th Air Base Group.

Wing Commander, Colonel Kemp is a native of Nebraska who interrupted his course at the University of Washington

to enter the Air Corps in 1939, resuming his studies and winning his degree in 1947. In WWII he served in the Training Command until 1943 when he was assigned to the VI Bomber Command in Panama. In Korea he was Deputy Air Inspector for the Fifth Air Force and later commander of the 452d Bomb Wing's 452d Bomb Group, flying 61 combat missions in B-26s. He was Chief of the Personnel Requirements Division at Hq. USAF when he was reassigned to Air War College and thence to the 10th Wing. He and his wife Edna live in the Alconbury Senior Officer's Quarters.

The 10th has scored heavily in competitions held in the European theater, having just recently been with the 4th Allied Tactical Air Force in winning the Gruenther Trophy and having won over the British in a night reconnaissance competition—the "Royal Flush."

47th Bomb Wing (Tactical) Hq. RAF Sculthorpe

COL. Kenneth C. Dempster's 47th Bombardment Wing (Tactical) is not only the only B-66 wing in the entire USAF, it is also the only USAF all-weather tactical bomb wing in Europe. Furthermore, its 420th Aerial Refueling Squadron is the only refueling squadron assigned to Europe.

This base from which it operates is the biggest USAF occupied base in the United Kingdom, covering some 3,000 acres. In case of destruction of the Third Air Force headquarters at South Ruislip, Sculthorpe has been designed as an alternate for its headquarters.

The 47th three squadrons, 84th, 85th, and 86th, are equipped with Douglas-built B-66s, making it the only round-the-clock, all-weather strike force within USAF. The Wing also uses eight Lockheed T-33s for instrument training, Con-

USAF's Integrated Safety Program Aids Defense

The forthrightness with which the Air Force has faced and grappled with the problem of safety in the nuclear missile age has paid off in many ways—in winning respect for the Air Force in its 100 per cent record in nuclear safety, in the humanitarian preservation of life, and in keeping more men and machines militarily effective for the defense of the Nation.

This direct, aggressive approach to accident prevention in the Air Force, as Maj. Gen. Perry B. Griffith, Deputy Inspector General For Safety, points out in his "Commander's Report" on the first page of this issue of THE JOURNAL, operates with primary emphasis on people. Not that organization is neglected, indeed it is being tightened and perfected at all times, but as General Griffith says, "People cause accidents and people must prevent them!"

It is significant that with the advent of the jet engine and very high performance aircraft wherein reaction time is compressed to the very threshold of human capability, the Air Force has shown an appreciable decrease in aircraft accident rates. Under General Griffith and his predecessor, Maj. Gen. Joseph D. Caldera, aircraft accidents have become fewer during what would appear to be a most perilous era. Today more airmen lose their lives in automobile accidents than in aircraft. But even in this latter field the Air Force is bettering its safety record.

Because of these efforts in an "integrated" safety effort, the Air Force today has more planes in the air and more officers and airmen to operate them.

Nation Greet's Its Navy On Navy Day

The recent achievements of the U. S. Navy make this week's celebration of Navy Day on 27 October a most memorable one.

By the end of this year, the first two Polaris submarines, George Washington and Patrick Henry, will become operational with the Fleet. Carrying 16 ballistic missiles each, the nuclear submarines will be capable of roaming the oceans of the world undetected. Following the Polaris submarines will be the recently launched carrier Enterprise, whose atomic powered engines will give her a new dimension of mobility.

In 1922 when the Navy League established 27 October, the birthday of Theodore Roosevelt, as Navy Day, adherents of sea power were elated over the Navy's progress. The transition from wood and sails to steel and steam had put us in the forefront of seapower. "T.R.'s" feat in sending the Great White Fleet around the world had gained both friends and respect for our Navy. Today, as in 1922, the Navy has demonstrated its capacity for applying the most advanced technology to our use of seapower.

It is the Navy League which has kept the Navy Day a significant event. In 1949 when then Secretary of Defense Louis Johnson sought to ban separate Service Days in favor of his newly established Armed Forces Day, the Navy League, being an entirely civilian organization, defied his orders. By 1953 the Navy League was able again to gain the support of the Navy Department in its sponsorship of Navy Day. This, indeed, is a commendable achievement.

National Air Museum Needs New Exhibit Building

The presentation of the Navy's famous record breaking "One X" Chance Vought XF8U-1 Crusader to the National Air Museum again points up the pressing need of the Smithsonian Institution for an adequate exhibition building in which to house its growing collection of aviation "firsts."

At present only ten per cent of the Museum's sizeable collection is on display; the other 90 per cent is in storage in suburban Suitland, Md. The inspiring "One X," which is in perfect flying condition, must join its historical brothers in dead storage.

Congress, in 1958, passed an authorization bill providing for the drafting of plans and designs for a new building to house the collection.

The Smithsonian Institution has such plans virtually ready and has designated an excellent site between 4th and 7th streets southwest and Independence Avenue and Jefferson Drive, just opposite the National Gallery of Art. But no money has yet been appropriated, so that even with the most expeditious action a suitable building is still years away.

Fortunately, the Smithsonian executives are working on an excellent interim plan. A new building for its Museum of History and Technology is now under construction with completion scheduled for 1962. At that time most of the collection now housed in the old Arts and Industry building will be moved into the new structure. Smithsonian plans provide that at that time part of the vast collection of aircraft and equipment now in storage will be put on display in the old Arts and Industry building pending the construction of a building designed specifically for aircraft.

In the meantime we trust that Congress will act promptly in providing the funds to begin a building to house the entire aircraft collection.

The remarks of Dr. Remington Kellogg at the presentation of the Chance Vought "One X" point up the national importance of such an exhibit. He said:

"The National Air Museum looks forward to placing the 'One X' on display and telling its inspiring story to millions of visitors. In doing so, we feel that it will encourage many youthful Americans to the study of science and engineering. This historical aircraft will, in retirement, continue its service to America."

READERS' VIEWS

A Good Shipmate

Editor, The Journal:

I have just had a chance to look through the back issues of THE JOURNAL that accumulated during my absence in Europe and I want to compliment you on the wide and careful coverage you gave to numerous phases of our NATO Fall exercises.

Members of my Atlantic Fleet staff who were at sea with you during the exercises tell me that you were not only a hard working on-the-scene reporter but a good shipmate. This is high praise from the Navy. I hope we can have you with us again sometime.

Sincerely,

ROBERT L. DENNISON
ADMIRAL, U. S. NAVY

USMA Faculty Post Open

Due to the impending retirement of the Head of the Department of English at West Point, Col. G. R. Stephens, a committee of which Col. G. A. Lincoln is chairman has been appointed by the Superintendent to consider individuals for appointment to the position of Professor of English.

The committee desires to receive applications from those who are interested in the position.

Subjects taught in the Department of English include both composition and literature, so that qualifications in both these areas are desirable.

Applicants should already have at least an appropriate master's degree and interest in pursuing further study in these fields, if they do not already have a Ph.D. Undergraduate teaching experience, experience in writing, and general military service are also desirable qualifications. The applicant should be in his forties in order to provide for continuity of service in the department.

Address inquiries or applications to

Col. G. A. Lincoln, Professor of Social Sciences, or to Col. Russell K. Alspach, Professor of English, U. S. Military Academy, West Point, N. Y.

Inquiries or applications should be received by 15 November.

RUSSELL K. ALSPACH
COLONEL, USA
PROFESSOR OF ENGLISH
U. S. MILITARY ACADEMY
WEST POINT, N. Y.

AF Chief Receives Space Flag Clip

THE metal clip which held the U. S. Flag in the Discoverer XIII space capsule was presented to General Thomas D. White, Air Force CofS, by Lt. Gen. Bernard A. Schriever, Commander at an ARDC Dining-in. The clip, imbedded in clear plastic, was accompanied by a plaque recognizing General White's leadership in the United States Air Force's aerospace activities which resulted in ARDC's successful recovery of the earth's first man-made object returned from orbit.

IN THE JOURNAL

UN Forces Reach Yalu River; Navy Aeronautics Proposal Gets Support; Cavalry Losses High

10 Years Ago—United Nations forces, sweeping aside all Red opposition, reached the Manchurian border late Thursday, and are now at the South bank of the Yalu River, which separates Red China from North Korea.

50 Years Ago—The wide public attention attracted by the admirable appeal to midshipmen to interest themselves in naval aeronautics from Rear Admiral Colby M. Chester, which was published in our last issue, should awaken Congress to the necessity of providing adequate funds for the proper study of military aeronautics. While other countries, notably France and Germany, are spending large sums annually investigating the possibilities of aerial warfare, the United States is doing practically nothing.

97 Years Ago—It is stated that in the late campaign in Virginia the loss of Union Cavalry, in killed, wounded and broken-down horses, reached the enormous figure of thirty-five hundred. This will give the Cavalry Bureau, at Washington, all the work it can do to supply the deficiency.

Navy Secretary Franke's "Never Was" News Conference

THE "NEVER WAS" CONFERENCE—NO. 2

The Journal issue of 22 October published a "never was" Pentagon news conference with Secretary of the Army Wilber M. Brucker.

The conference with Secretary of the Navy William B. Franke, reported herewith, was conducted under exactly the same ground rules as last week's session.

This means that the Secretary of the Navy did not participate in it. The questions and answers were fabricated in the offices of The Journal.

There is no question that Navy Secretary Franke, Army Secretary Brucker, or Secretary of the Air Force Dudley C. Sharp, who is scheduled to hold a "never was" conference in next week's issue, could do a better job. But this would force them to follow the advice of Secretary of Defense Thomas S. Gates, Jr. He suggested last January that they hold Pentagon press conferences.

Press—Some of us, Mr. Franke, attended a news conference some months ago at which you reported on a Navy Reorganization Committee you headed. But you were Under Secretary of the Navy then, so this really is your first Pentagon news conference as Secretary. Therefore, a general question at the start. What do you see is the future of the Navy?

Franke—Well, no matter if this is my first or final Pentagon news conference, that's a super-sized question, about which I could certainly speak for an hour or more. But let me just say, very briefly, that the Navy has embarked on a glorious new era. With our Polaris submarines deployed to sea, and our first atomic-powered carrier on the way, we are on the threshold of a new epoch in naval history . . .

Press—Excuse me for interrupting, sir, but I would like to know to what extent you feel that your great confidence in the future of the Navy is shared throughout the Nation?

Franke—Thank you for the interruption. First of all, it saved me from making a speech. And secondly, I want to tell you people how pleased all of us are about the great support and understanding the American people are giving to the Navy and Marine Corps.

Navy Gets Money

Press—Can you please be a bit more specific on that point, Mr. Secretary?

Franke—I think that if you will examine the record of the action taken by the last Congress and the Administration in providing increased readiness of our Fighting Forces, you will see that the Navy has been given the lion's share of this increase. In my opinion, this attests to the widespread recognition that is being given to the fact that no other force can match the versatility, mobility, and economy of the Navy-Marine Corps team.

Sea Service Strengths

Press—Are you satisfied with the present strength of the Navy, which is about 624,000 and the Marine Corps, which has about 175,000, compared with 200,000 recommended by Congress?

Franke—No civilian or military chief of any Service is ever satisfied that he has enough men, but I feel that with the steps we have taken to conserve manpower resources we can meet our commitments with our present strengths. You will note that we have been able to deploy two more carriers to sea, and have increased our Marine battalion landing teams. This has been a difficult task, but we have managed to build up our combat units despite cuts in manpower. Of course, we would be unable to meet our requirements if their should be any further manpower reductions.

Press—In view of the Navy's primary

mission for controlling the seas, do you think of Polaris submarines essentially as a naval weapon or as a major component of the Nation's strategic striking force?

Franke—That again is a difficult question to answer without a lengthy discussion, but I will try to do my best with it. Polaris is, of course, a naval weapon, and it is one of the great naval weapons of all times—possibly the greatest. The Polaris submarines lurking in the depths, ready for any emergency and subject to no problems of sovereignty, are new assurance that the U. S. Navy will continue to maintain supremacy at sea. But, of course, the Polaris ships—we call these submarines ships now and not boats you know—also have a tremendous striking capability against enemy targets. We must be certain that this capability is used to maximum effectiveness.

Polaris Command Control

Press—In that connection, Mr. Secretary, do you feel that the Polaris submarines should be placed under control of a single commander, say the Commander-in-Chief of SAC?

Franke—I want to be most emphatic on that question. Polaris submarines, the same as aircraft carriers, missile cruisers, destroyers, and anti-submarine warfare submarines, must at all times be under direct command control of our experienced fleet commanders. I cannot emphasize this too strongly.

We are taking important steps forward, as you know, in the work of the Joint Strategic Targeting Center, which happens to be located at Offut Air Force Base near Omaha. The Navy supports this effort 100%. But a wise decision was made to maintain the operational control of Polaris submarines in the hands of our fleet commanders, which is exactly where it belongs.

Press—At the recent Air Force Association convention in San Francisco, there was a resolution calling for a single service. How do you stand on that?

Franke—The Navy has been opposed and continues to be opposed to centralization of military power in a single Service or a single Chief of Staff. The fact of the matter is, in response to your question, I understand that many people in the Air Force also recognize the dangers of a single Service concept.

Press—Back to the Polaris, sir. Some years ago there were some Navy admirals—I believe Admiral Radford was one of them—and some other Navy officers—if my memory is right, this group included a Captain Arleigh Burke—who lambasted the Air Force and its B-36. The point was made then that the Air Force was forcing the country into a "blockbuster" concept of National Defense. What was needed, the admirals said, was a precision striking force, such as could be provided by Naval aircraft operating from 60,000-ton carriers? I wonder if you have any comment to make on the fact that today the Navy is advocating a "blockbuster" approach with the use of Polaris submarines?

New Kind Of Deterrent

Franke—That is a lengthy question. Let me say first that times have changed. The Soviet Union, it must be recognized, is a greater danger than was the case in 1948 and 1949. Fortunately for this Nation, the Navy and Marine Corps showed in Korea, and later in Lebanon the importance of our versatility and mobility. I am sure that Admiral Radford and Admiral Burke, and all of us would agree, that there will be no victory in all-out thermonuclear war. The Navy continues to advocate a force that will be able to do precisely the job that needs to be done, and no more. Fortunately, we have just such a force in the Navy-Marine Corps team.

But the Communists with their new power now need to be confronted with a new kind of deterrent in order to

assure peace. Our Polaris submarines are exactly that new kind of deterrent. Mr. Khrushchev and the people who advise him now know that it will be impossible to knock out this Nation's retaliatory capability. Our Polaris submarines, moving silently through the ocean depths, will make any aggressor realize that he must reckon with a devastating counter-blow if he strikes.

It is my view that the singular tactical capabilities of the Polaris submarine make her a strategic weapon for peace.

(At this point in the press conference, an aide cleared his throat and reminded the Secretary that he had another urgent appointment in five minutes. Sitting down quickly, the aide inadvertently tipped over a coffee spoon which spotted the rug. Fortunately, the cup and saucer held a steady course. The conference continued—Editor's note)

NATO Command

Press—On an entirely different subject, Mr. Secretary, do you feel that the NATO Commander should always be either an Air Force or Army general? Or do you believe that a Navy admiral also should be considered as a possible successor to General Norstad at such time that he retires?

Franke—Let me make one point first that many people—even some of you in the press forget—and that is the fact that General Norstad is one of two NATO Commanders of equal rank. The other is Admiral (Robert L.) Denison, Supreme Allied Commander Atlantic. I say this because many people think that SACLANT is subordinate to SACEUR. They are co-equal commands. Now, there is little question that SACLANT will always be headed by a Navy admiral. The participation of the other Services in this command is, by the nature of its mission, very small.

On the other hand, I believe that the situation in Europe is different, what with our Sixth Fleet providing such a basic element of NATO's striking power in event of hostilities. Therefore, I think that when it comes time to choose a SACEUR, the only consideration should be to find the best man for the job, regardless of what Service hat he wears.

And in this connection, I would like to add that in the Navy we have some outstanding officers who have had great experience at the highest levels joint and combined commands. There is no question in my mind, for example, that all NATO nations are aware of the outstanding performance of duty which has marked the distinguished career of our brilliant Chief of Naval Operations, Admiral Burke.

Rank Discrimination

Press—Mr. Secretary, there have been more complaints that the Navy is being discriminated against in the matter of rank for senior officers in responsible billets. Is the Navy doing

anything to eliminate this discrimination?

Franke—As you know, all Military Departments have been called upon to provide increasingly large numbers of flag and general officers for Joint Staff and Defense Department assignments. I don't recall the exact number, but we must assign more than one quarter of our admirals to activities completely outside of the Navy. A recent example is the Strategic Targeting Center I mentioned before. At the same time, we are limited by Congress to a substantially smaller number of senior officers than the other Services.

This is a matter of great concern to us and I have spoken at length on the subject to Secretary Gates, Assistant Secretary Finucane and members of the Defense Department's Bolté Committee in an effort to find some solution. I believe we have made some progress in bringing about a greater realization of our needs on the part of other members of the Defense Department team, but we have not reached the point where we can draft a solution in the form of a concrete legislative proposal.

We do hope to have such a proposal ready, sometime during the next calendar year. In the meantime, as I am sure you know, we won't say to the Defense Department we cannot give them the services of this or that admiral, because that particular man is urgently needed for command at sea. For the time being, we will just have to "make do," and endure the situation as best we can.

Rose Bowl Ahead?

Press—Mr. Secretary, at his "never was" press conference last week, Secretary of the Army (Wilber M.) Brucker was asked to predict the winner of the Army-Navy game. He said he did not want to hurt the gate by such a prediction. I have two questions for you: (1) Who is going to win at Philadelphia? And (2) will you let the Navy team play in the Rose Bowl?

Franke—Let me tell you that, really, it's no difficult task handling questions about the Polaris, Single Service, NATO Commanders, or other easy ones. But when you ask me about the Army-Navy Game, that's something else again. I am not going to make any remarks here that the West Point team can plaster on their lockers. I read Secretary Brucker's comments and I agree with him that it's going to be a hard fought game. Certainly, we have a fine Navy team.

As to your question about the Rose Bowl, well we shall just have to wait and see. Of course, as you know, we in the Navy always want to present ourselves to our bosses, the American public, whenever we can, and whenever we have an accomplishment of which we can be proud—be this open house on Navy Day, which as you know is tomorrow, or a particularly representative team from Annapolis.

Press—Thank you, Mr. Secretary.

MEMO--

ALL SERVICES ARE MAKING strong bids for designation as Single Manager for electronic supplies, but some senior military experts in the field are expressing private doubts whether such a single managership should be established. One of these is Maj. Gen. Francis F. Urhane, Commander of the Army's Electronic Proving Ground at Ft. Huachuca, Ariz. General Urhane says he does not "think such a single managership is practical." Decision on whether to establish the electronics agency will be made early next year by the Defense Department, after completion of studies by the Armed Forces Supply Support Center, in Washington, D. C.

THE ARMED FORCES I&E OFFICE, which devotes great emphasis to encouraging U.S. military men and their families to learn the language of foreign countries to which they are assigned, has taken a reverse twist action. A message was sent to all oversea commands requesting information concerning techniques which have proved successful in teaching English to indigenous personnel. The best of these will be used in a pamphlet to be published for use by all U.S. Service people abroad.

THE TEACH-THE-NATIVES ENGLISH survey was dispatched to such commands as U.S. Army Europe in Heidelberg, Germany, and to the U.S. Forces Korea in Seoul. It went to SETAF in Verona, Italy, and the Taiwan Command. The questionnaire also was dispatched to CINCELM and Third Air Force Headquarters. They happen to be in England.

THE MICKEY MOSS AWARD has been established at the Pentagon. Originated in the office of Assistant Secretary of Defense Murray Snyder, the award goes to that Service or individual who does the most to disturb relations between Congress, particularly the House Committee headed by Representative Moss (D-Calif.), and the Pentagon. The Army held undisputed possession of the cup for its high-flying feat of amending a message given to it by Reporter William Hines of the *Washington Star* for transmittal to and from the Courier satellite. Mr. Hines, whatever his irritation, thus gained celestial fame as the reporter who suffered the first censorship in space.

THE ARMY WAS FORCED TO SURRENDER the Mickey Moss, however, to Director James G. Dunton of the DoD Office of Public Services. He was cited for putting out a space effort "score sheet" showing U.S. and Soviet comparisons and urging top Pentagon civilian and military officials to use it "whenever possible in connection with speeches or other opportunities to inform the public and correct misconceptions." There was a suggestion by some that by this action the Pentagon was meddling in politics.

MATS EFFORTS TO GAIN increased public support was evident at the American Legion Convention in Miami. The Illinois Department (MATS Headquarters are at Scott AFB, Ill.), originated a resolution which called for modernization of MATS aircraft and continued war readiness airlift training for Active and Reserve Forces. Another resolution was proposed by the New Jersey Department (McGuire AFB, N. J., is a key MATS facility). It called for maintaining the MATS Aeromedical Evacuation System at "optimum efficiency." Air Evac was recently curtailed. Lt. Gen. Joe W. Kelly, MATS Commander, was named Honorary Grand Marshal for the Legion Parade.

THE ARMY'S BERLIN COMMAND has named its firing range on the border of the East German Zone in honor of the late Lt. Gen. Floyd L. Parks. He was the first Berlin Commander and, after retirement, was Executive Director of the National Rifle Association.

WHERE ONCE THE ARMY WAS MOST CAREFUL in talking about missile ranges in public statements to stay within a 200 mile or, at most, "several hundred mile" distance, the success of the Pershing R&D program is prompting broader talk. Lt. Gen. Arthur G. Trudeau, R&D Chief, has noted publicly that Army missiles "vary from the small anti-tank weapon, with a trajectory measured in hundreds of yards, to ballistic missiles, spanning hundreds of miles." Army contracts now cover 19 complete rocket and missile systems, plus the Shillelagh missile being developed by Aeronutronics and a new target missile being developed by North American Aviation and Marquardt Corporation.

GENERAL GEORGE H. DECKER, during his first appearances as CofS on Capitol Hill next year, will be asked what he thinks about the arbitrary limitations imposed by DoD on the weight and range of Army missiles, and the weight and armament of Army aircraft. He will reply that, within budget limitations, the Army should be allowed to develop the weapons it needs to fulfill its missions, the same as the other Services.

ARMY AVIATORS ARE HOPEFUL that successful Marine Corps helicopter tests with the Navy-developed air-to-surface Bullpup missile, which is also being used by the Air Force, will prompt early action authorizing the arming of Army copters with this weapon. But because of Army-Air Force agreements on aircraft arming, the Army has deemed it prudent to permit the Marine Corps to blaze the trail for copter use of Bullpup.

AN ADMIRAL HAS BEEN "WOUNDED IN ACTION" at the Pentagon. RAdm. Redfield Mason, Assistant CNO for Fleet Operations and Readiness who is slated to become Pacific Fleet Service Force Commander in February, was the victim. Admiral Mason was manning his swivel chair. The phone rang. He made a hard turn to port. A recurrence of a back injury sent him to Bethesda Naval Hospital.

ARMY AND AIR FORCE OFFICERS will be welcomed for Army-Navy Football Game festivities by the Philadelphia Quartermaster Center, 2800 South 20th Street. On Friday 25 November, there will be a rally at the Center beginning at 8:30 p.m., attended by Maj. Gen. William C. Westmoreland, USMA Superintendent. On Saturday morning, breakfast will be served and in the evening there will be a buffet dinner and dance. The Center will provide free parking space and bus transportation to and from Municipal Stadium.

TWO TOP ARMY INFORMATION officers, Col. Robert V. Shinn and Lt. Col. Paul A. Conlin, have retired. Assistant Chief of Information, Colonel Shinn will join the USIA in Dusseldorf, Germany. He was USAREUR Chief of Information and Deputy Chief of Information at SHAPE before his final Pentagon tour. Colonel Conlin, a veteran newsman, began his military information career in 1942. He was Deputy Chief of the USAREUR Public Information Division before assignment in 1957 to the Office of the Chief of Information.

B/G JOHN F. THORLIN, who continues as CG of the Army's Ordnance Tank-Automotive Command in Detroit, will be Executive Director of the Military Automotive Supply Agency. The Army has been designated by Secretary of Defense Gates as the Single Manager for Military Automotive Supplies in all the Armed Forces.

LT. GEN. LESLIE R. GROVES, USA-Ret., President, has announced appointment of Mrs. George H. Decker, wife of the Army CofS to the Army Distaff Foundation Board of Directors. Mrs. Lyman L. Lemnitzer, wife of the JCS Chairman, is also a member of the Board. General Groves reports that occupancy of the 300-unit residence in Washington, D. C., for Army widows is expected in early 1962. Col. Julian B. Lindsey, USA-Ret., is Foundation Executive Vice President.

HIGH-LEVEL INDUSTRY SUPPORT was the keystone of the press orientation (see also Pages 22, 28) last week at the Army's Electronic Proving Ground, Ft. Huachuca, Ariz. Scores of industry people were on hand to insure that newsmen were provided details on new developments brought forth by the Army-Industry team. One participant was Harold V. Gaskill, Vice President for Planning of the Collins Radio Company, Cedar Rapids, Iowa. A Reserve brigadier general, he holds the mobilization designation of Assistant to the Chief of Army Research and Development.

UP TO ABOUT FOUR YEARS AGO, the Army took second rank to the other Services when it came to effective liaison with industry for press demonstrations. That is no longer the case. In addition to effective work of Chiefs of Information during the past several years, the Association of the U.S. Army has done a big job in this area.

SAC HEADQUARTERS WILL ADVISE the Pentagon that a mixed fleet of about 200 helicopters and light aircraft will be necessary to support Atlas and Titan missile sites throughout the nation. This airlift will be used to cut from hours to minutes the time required to reach some sites from central command and support posts.

THE VICE CHIEF OF NAVAL OPERATIONS, Admiral James S. Russell, confessed to a feeling of nostalgia during ceremonies at which the Chance Vought XF8U-1 Crusader was presented to the National Air Museum (see picture, Page 7). He recalled flying the "wood and fabric" Chance Vought FU-1 off the deck of the old USS Langley in 1929. The firm, he reminisced, has long been a contributor to the Navy's fighting forces. Admiral Russell noted that 4,600 Vought Corsairs were used by the Navy in WWII.

THE COST OF COVERALLS is going up. The Military Clothing and Textile Supply Agency is buying 63,328 coveralls for the Air Force at a cost of \$23 each.

IT'S NO MERE FORMALITY when the Royal Air Force Staff College at Bracknell, England, and the USAF Air University at Maxwell AFB, Ala., hold exchange instruction. During the week of 23-28 October, all classes at the RCAF school were conducted by USAF Air University faculty members, led by Maj. Gen. L. P. Dahl, Commandant. Next March, RAF Week will be held at Maxwell.

SAC CREWMAN CAN FIGHT with other weapons than bombs, if the need arises. General Thomas S. Power, CinC, a judo enthusiast himself, arranged for 18 airmen from 16 SAC bases in the U.S. to attend a six-weeks course at the Kodokan Institute in Japan, world judo instruction headquarters. The course includes training in aikido, karate, and judo, and trains the USAF students to teach SAC combat crews and air police how to fight with hands and feet.

MOSCOW IS TALKING with the Army's missile center at Redstone Arsenal, Ala. But nothing much is being said. Four Army privates at Huntsville, operating a "ham" Military Affiliate Radio Station (MARS), have been chatting about once a week in Morse Code with a Soviet farmer outside Moscow. A report from Redstone Arsenal states: "The Russian operator . . . doesn't talk much. Neither do the Redstone operators, for that matter. They give their locations, the call letters of their set and signal report and sometimes the power of each station."

RECIPIENT OF 43 DECORATIONS and one of six pilots who are jet as well as piston aces, Col. Harrison R. Thyng has assumed command of the Duluth Air Defense Sector after duty as Chief of the Aircraft Branch of the Federal Aviation Agency's Office of Plans. He is credited with victories over German, Italian, French, Japanese and Russian aircraft.

Army Reserve Forces Members Trained For Nuclear Weapons Systems

SECRETARY Wilber M. Brucker
has disclosed that the Army is
training Reserve Forces members in
nuclear weapons and delivery systems
at the Command and General Staff
College, Ft Leavenworth, Kans., and
six branch schools.

In connection with the anniversary
of the launching of the One Army
concept—in which the Active Army,
Army National Guard and Army Re-
serve work and train as a single team
—Secretary Brucker said that training
of selected Reserve Component units
in the Honest John, capable of carry-
ing an atomic warhead, and other
modern weapons, began this summer.

Providing more training in nuclear
weapons was one of the 49 recom-
mendations made one year ago by the
60 senior officers of the Active Army,

National Guard and Reserve com-
manders during their Washington
meeting.

To qualify more Reserve Com-
ponent officers in the use of nuclear
weapons, a two phase program has
been devised. The program is moni-
tored by the Command and General
Staff College. Phase one consists of
93 hours of unclassified extension
course work. Phase two will be a two-
week active duty course at one of the
six Army branch schools.

Acting on another recommendation,
the Army lessened the burden caused
by a shortage of technicians in the
Army Reserve by authorizing an in-
crease of 458 technicians in Fiscal
Year 1960 and an additional 170 in
Fiscal 1961. This will bring the world-
wide total of Army Reserve techni-

cians at the end of fiscal 1961 to 3,216.

In an attempt to get the most train-
ing out of the taxpayer's dollar, a pro-
gram of joint Army Reserve and Na-
tional Guard use of training facilities
is in effect. Although some difficulties
exist because National Guard facilities
are under state control and Reserve
facilities are under federal control,
six working agreements are already
in operation in Gainesville, Fla.; St.
Cloud, Minn., and Beckley, Clarks-
burg, Logan, and Weston, W. Va.

An Army announcement added:

So that all components would bene-
fit from the lessons learned in the
field, allocation of quotas was made to
reserve component commanders and
staffs for participation in field exer-
cises and maneuvers. During the past
year, nine observer spaces were allo-

cated for reserve component person-
nel to participate in exercise WINTER
SHIELD in Europe. There were two
reserve component spaces for exer-
cise LITTLE BEAR in Alaska and two
for exercise BIG SLAM-PUERTO
PINE.

To keep to a minimum the total
man-days required of unit com-
manders, steps were taken to combine
numerous inspections made during
the year of reserve component units.

A number of actions are being
worked out along educational lines.
One is a review of Army policy to
insure that reserve components are
given every consideration for attend-
ance at service schools during cer-
tain periods of the school year. This
will allow maximum attendance of
reserve component personnel.

Army Orders

BACK FROM O'SEAS:

Capt. Bonifay First Army Provost

Col. Isaac F. Bonifay has assumed duties as Provost Marshal for the Army Air Defense Command after duty as Provost Marshal for the Korean Military Advisory Group. Colonel and Mrs. Bonifay have two sons, William, attending Louisiana State University, and Isaac, jr., a second lieutenant in the Army, who is expected to be assigned to the 2d Missile Command at Fort Carson, Colo., next spring. The colonel and his wife are living at 822 Orion Drive, Colorado Springs.

Lt. Col. Arthur P. Murphy has been assigned to the Ft. Ord, Calif. 1st Brigade from Korea. He will be Commanding Officer of the brigade's 2d Battle Group. Colonel Murphy makes his home with his wife, Lillian, at 2102 Fremont, Monterey, Calif.

Maj. Vincent A. Territo, formerly on duty in Japan, has been named Director of Personnel for Tyndall AFB, Fla., replacing Maj. William Arbogast, who will go to Argentina for his next Air Force assignment.

Maj. William Yri is the new Commanding Officer of Special Troops at Aberdeen Proving Ground, Md., following duty at Heidelberg, Germany. He is married to the former Miss Martha F. Bartlett of Grafton, W. Va. They

have four children, David 14; Ellen 12; Bryan 6; and Phillip 5.

Capt. Jefferson D. McCollum has been named Chief of the Intelligence and Operations Division of the Army Infantry Center G-2 Section at Ft. Benning, Ga., after duty with the G-1 Section of Headquarters, Berlin Command. Captain McCollum is married to the former Thelma Gilbert of Columbus, Ga. They have a daughter, Kelli Ann, 17 months.

Col. Balthis Leads Devens Battle Group

Col. Charles E. Balthis, jr., is the new Commander of the 2d Battle Group, 60th Infantry (Go Devils) of the 2d Infantry Brigade, Ft. Devens, Mass.

A USMA '40 graduate, he arrived from Louisville where he had been Senior Advisor to the 100th Division of Kentucky. Prior to that assignment he commanded the 2d Battalion, 21st Infantry Regiment in Korea. Before going to Korea he served in the Office of the Chief of Information, Department of the Army.

Colonel Balthis and his wife, the former Elizabeth Mountcastle of Roanoke, Va., and their daughter, Betsy, reside at 55 Walnut Street, Ft. Devens. Their son, Vernon is a Third Classman at Virginia Military Institute, Lexington.

ARMED FORCES STRENGTH SHOWS RISE

TOTAL numerical strength of the Armed Forces at the beginning of Octo-
ber was 2,492,474. This represents an increase of 7,133 from the August
combined strength of 2,485,341.

These figures represent full-time military personnel comprising both
Regulars and Reserves on continuous active duty and officer candidates, in-
cluding cadets at the Military and Air Academies and Midshipmen at the
Naval Academy.

Strength figures for each Service in September with month-ago and year-
ago comparisons follow:

ACTIVE DUTY MILITARY STRENGTHS

	30 Sept. 1960	31 Aug. 1960	30 Sept. 1959
(Preliminary)			
TOTAL DoD	2,492,474	2,485,341	2,492,449
Army	877,749	875,724	867,437
Navy	624,516	621,171	618,191
Marine Corps	175,709	174,508	173,654
Air Force	814,500	813,938	833,167

Four Star Participants In Guard Conference

THREE Army generals were among the participants in the recent 82d General Conference of the National Guard Association in Honolulu. Left to right are General Clark L. Ruffner, U. S. Military Representative to the NATO Standing Group; General I. D. White, U. S. Army Pacific Cinc; and General Herbert B. Powell, new CG of the Continental Army Command at Ft. Monroe, Va. Both General Ruffner and General Powell commanded the Third Army at Ft. McPherson, Ga., before being named by President Eisenhower for four-star rank in their present assignments. Both also were Army commanders in Hawaii.

Mrs. Clarke Greeted At Bremerhaven Port

MRS. Bruce C. Clarke, left, was welcomed by Mrs. Richard K. Hutson, wife of the Commander, Army Port of Embarkation, Bremerhaven, Germany, prior to a luncheon given in Mrs. Clarke's honor. The luncheon was sponsored by the Bremerhaven Army Wives Club on the occasion of General and Mrs. Clarke's arrival in Germany where he took command of U. S. Army Europe.

Elected At Lewis

Officers wives at Ft. Lewis, Wash., have elected officers for 1960-61.

Wives of 4th Infantry Division Trains officers chose Mesdames Alexander Becker, President; Carroll F. Wines, Vice President; Leonard L. Gaskins, Secretary and Gaylord E. Ailshie, Treasurer.

Committee chairmen are Mesdames Joseph Mano, Publicity; John J. Chauffeur, Hospitality; Maurice Green, Reservations; James O. Mortrude, Red Cross; Leonard L. Gaskins, OWC Membership; and Harvey S. Simpson, jr., Program Coordinator.

Wives of 2d Engineer Amphibious Support Command officers elected Mesdames James Finn, President; James McKain, Vice President and Judson Matthias, Treasurer. Committee chairmen are Mesdames Warren Hildbrandt, Hospitality; Charles Rademaker, Luncheon; and Ronald Maasberg, Red Cross.

The Post and Division Adjutant General Officers Wives elected Mesdames Edward J. Delaney, President; Fred Robinson, Vice President; and Peter Watson, Treasurer.

Farewell To Wife Of New Army Vice Cofs

MRS. Clyde D. Eddleman (center), wife of the new Army Vice Cofs, receives farewell good wishes from Frau Friedrich Berendsen, wife of Bundeswehr Brigadier General Berendsen, Deputy Cofs, Central Army Group, at a tea sponsored by the Heidelberg American Women's Club. Also in the receiving line were: Mrs. Oren Swain, Club President (far left) and Mrs. Andrew J. Adams, chairman of arrangements. General Eddleman has been Commander in Chief, US Army, Europe.

Service Folk

Brig. Gen. and Mrs. Carter W. Clarke, USA-Ret., have returned to their apartment in The Westchester, Washington, D. C., where General Clarke is Manager, after an extended vacation in Mexico City and Acapulco. On their return from Mexico they visited army and civilian friends in San Antonio, Texas, and spent several days with their son and daughter-in-law, Maj. and Mrs. Carter Weldon Clarke, jr., at The Citadel, Charleston, S. C.

Mrs. Sherwood Cheney, his widow, and Mrs. Clifford Cheney, his sister, were present at ceremonies last week at Ft. Belvoir, Va., when an elementary school was named in honor of Brig. Gen. Sherwood A. Cheney, former Commandant of the Engineer School there.

Mrs. Phyllis Gilson, wife of Senior M/Sgt. Melvin H. Gilson of the 67th Reconnaissance Technical Squadron, Yokota AB, Japan, has been elected Secretary of the Kanto Plains Council of the American Red Cross. A nurse, she is Red Cross Safety Services Chairman at Yokota, one of America's largest installations in Japan.

Mrs. John Bohlender was welcomed 26 October by the Brooke Army Medical Center Women's Club at Ft. Sam Houston, Tex. She is the wife of the new CG.

Commanders' Wives Aid El Paso Symphony

THE wives of three El Paso military commanders have been welcomed into the El Paso Symphony Association as honorary members by Mrs. Maurice Schwartz, Vice President of the Woman's Committee of the Association. From left are Mrs. Salvatore E. Manzo, wife of Colonel Manzo, commander of Briggs AFB; Mrs. James B. Stapleton, wife of Brigadier General Stapleton, Commander of William Beaumont General Hospital; Mrs. Schwartz and Mrs. Stephen Mellnick, wife of Brigadier General Mellnick, Assistant Commandant of the Army Air Defense School at Ft. Bliss.

These Smiles Are Antidote To Global Tension

IN a world that is full of tension, heightened by the antics and glowerings of Premier Khrushchev, these six officers of the Naha AB Wives Club on Okinawa present an antidote of smiles. Seated left to right are March Pauling, Second Vice President; Thelma Gervale, First Vice President; and Peggy Reil, President. Standing are Merc Bouldin, who headed the Nominating Committee; Beverly Brevig, Secretary, and Marilyn Pine, Treasurer.

Service Weddings and Engagements

MAJ. Gen. (USAF) and Mrs. Thomas S. Moorman, jr., of Clark AFB, P. I., have announced the engagement of their daughter, Margaret Helen, to 1st Lt. Sergi Lincoln Demchuk, USAF, son of Mr. and Mrs. Peter Demchuk.

Daughter of the Commanding General, Thirteenth Air Force in the Pacific, Miss Moorman attended the University of Edinburgh and was graduated from Ohio Wesleyan University. She has been teaching at the Clark AFB school. Her fiancé, who is a graduate of the New York College of Forestry, where he was a Graduate Fellow in Entomology for two years, is a jet pilot with the 510th Tactical Fighter Squadron, under General Moorman.

A January wedding is planned.

GORDON-BAUMAN — Mr. and Mrs. Julian J. Bauman of Catonsville, Md., announce the engagement of their daughter, Ann Virginia, to Ens. Robert Carl Gordon, USN, son of Mr. and Mrs. Carl S. Gordon of Texarkana, Ark.

Miss Bauman attended the Maryland Institute of Art, and her fiancé is USNA '59.

The wedding is planned for late Fall.

KINSLEY-THING—Mrs. Wilbur Thing of Tampa, Fla., has announced the engagement of her daughter, Mary Kerr, to Lt. Harry Walter Kinsley, jr., USN, son of Mr. and Mrs. Kinsley of South Norwalk, Conn.

Miss Thing, daughter of the late Colonel Thing, USMC, was graduated from Emory University's School of Nursing

and has recently completed three years of active duty with the Navy Nurse Corps as a lieutenant (jg). Her fiancé, now stationed aboard the USS Greenwood at St. Petersburg, Fla., is a graduate of Phillips Exeter Academy and Yale University.

A November wedding is planned.

BOYLAN-GRAEF—Director and Mrs. Paul Graef of Marktreidwitz, Bavaria, Germany, have announced the engagement of their daughter, Margaret, to 1st Lt. Steven Voorhees Boylan, USA, son of Mr. and Mrs. William H. Boylan, III, of North Haven, Conn.

Miss Graef attended Stratford House School for Girls, Bickley, Kent, England, was graduated as an exchange student from St. Mary's High School, Omaha, Nebr., and from Teschner College, Nurnberg, Germany. Her fiancé, USMA '56, is presently serving as Aide-de-Camp to Brig. Gen. William F. Ryan, VII Corps Artillery Commander.

A Spring wedding is planned, to take place at St. Peter's Church, Dalwood, Devon, England.

Miss Graef

SOUTHERLAND-SEBRING—Mr. and Mrs. Orvel Sebring of Villanova, Pa., have announced the engagement of their daughter, Margaret Welsh, to Lt. Thomas Chapman Southerland, Jr., USN, son of Mrs. R. Brannon Southerland, Durham, N. C., and Mr. Southerland, Alexandria, Va.

Miss Sebring is a graduate of the Agnes Irwin School and Connecticut College. Lieutenant Southerland, who is a graduate of the U. S. Naval Academy, is a Submariner stationed in Washington, D. C.

The wedding is planned for 25 November at the Presbyterian Church, Bryn Mawr, Pa.

KOCH-DORSEY — Col. (USMC-Ret) and Mrs. E. Thomas Dorsey of 721 So. Forest Ave., Ann Arbor, Mich., announce the engagement of their daughter, Jean Ellen, to Ens. Charles Edward Koch, II, USN, son of Capt. (USN) and Mrs. John V. Koch of 1435 Stuart Pl., Falls Church, Va.

Miss Dorsey, who was graduated from St. Agnes' School, Alexandria, Va., attended the University of Michigan, where she was affiliated with the Alpha Gamma Delta sorority. Ensign Koch, USNA '60, is currently stationed at Pensacola, Fla.

The wedding is planned for 28 December at the U. S. Naval Academy Chapel, Annapolis, Md.

Army Names 3715 For Temporary Major

From page 17—

DOWNING-HARTEL — Brig. Gen. (USA) and Mrs. Frederick O. Hartel of 506 Robinson Ct., Alexandria, Va., announce the engagement of their daughter, Dorothy Linda, to Cadet Harry E. Downing, USMA, son of Col. (USA) and Mrs. Ellsworth B. Downing of Vicksburg, Miss. Granddaughter of Maj. Gen. (USA-Ret) and Mrs. William H. Wilson of Hollidaysburg, Pa., Miss Hartel is a student at George Washington University, where she is a member of the Zeta Tau Alpha sorority. Her fiancé is a first classman at the Military Academy, where his father and General Hartel were 1933 classmates.

Miss Hartel

The wedding is planned for 10 June at the Cadet Chapel at West Point.

TYLER-LAM—Mr. and Mrs. D. G. Lam have announced the engagement of their daughter, Elaine Bernadette, to Lt. Royall Tyler, USAF, son of Mr. and Mrs. William R. Tyler.

Miss Lam is a graduate of George Washington University and her fiancé is an alumnus of Harvard University. A Spring wedding is planned.

CLUCAS-HUNTER—RADM. (USN-Ret) and Mrs. Raymond Paul Hunter of Washington, D. C., have announced the engagement of their daughter, Barbara, to Mr. Kenneth H. Clucas, son of the Reverend and Mrs. John H. Clucas of Irby, Wirral, Cheshire, England.

Miss Hunter is a graduate of Duke University. Her fiancé was graduated from Cambridge University and is now private secretary to the Minister of Labor.

A December wedding is planned.

ELIE-DRAIM—Capt. (USN-Ret.) and Mrs. Nicholas A. Drait of 348 Carol Dr., Ventura, Calif., announce the marriage of their daughter, Dorothy Reed, to Mr. Roland Leopold Elie, son of Mr. and Mrs. Maurice Elie of St. Leger Dubosq, Calvados, France, at the Cattedrale del Sacro Cuore, Tripoli, Libya, North Africa, recently.

Mrs. Elie attended Syracuse University and is presently employed by the Military Assistance Advisory Group to Libya at the American Embassy in Tripoli. Her bridegroom, a graduate of the University of Caen, is a geologist with the Compagnie des Petroles Total, Libya, in Tripoli.

Following a honeymoon on Malta, the couple will make their home in Tripoli and Normandy, France.

KRUTZ-BURNS—In an afternoon ceremony at the Protestant Chapel, Stewart AFB, Tenn., 23 October, Miss Sharon LeNore Burns, daughter of Col. and Mrs. Luther William Burns of Stewart AFB, became the bride of Mr. Robert William Krutz, jr., son of Mr. and Mrs. Krutz of Belzoni, Miss.

Given in marriage by her father, the bride chose Miss Rowena Cummings as her maid of honor, Misses Betty Johnson and Lynne Krutz, sister of the bridegroom, as bridesmaids, with little Misses Sonya Ryland, her cousin, and Cynthia Perkins as flower girls, and Master Ronald Burns, another cousin, as ringbearer. Mr. Krutz served as his son's best man and groomsmen were Messrs. Joe Higdon and Julius Collum.

Mrs. Krutz attended the Universities of Hawaii and Georgia and was a member of the Delta Delta Delta sorority. Mr. Krutz, who received a degree in Pharmacy from the University of Mississippi and was a member of the Kappa Alpha fraternity, is a graduate of the Naval Officer Candidate School.

The couple will reside in Memphis, Tenn., where the bridegroom holds a position with the Squibb Pharmaceutical Company.

COL. CAUTHEN IS GEORGIA GUARD ADVISOR

COL. William A. Cauthen, Arty., has been named Senior Army Advisor to the Georgia Army National Guard, succeeding Col. Maurice P. Shaver, USA-Ret.

Colonel Cauthen, who had served as Advisor to Georgia's Air Defense Brigade, accompanied the Georgia Delegation to Hawaii for the 82d Annual Conference of the National Guard Association. Mrs. Cauthen, along with many Guardsmen's wives, joined the delegation for the charter flight.

Army Electronic Proving Ground Appears Slated For All-Service Test Role

(Mach 2 Snooper, Page 28)

FT. HUACHUCA, ARIZ.

THE Army's Electronic Proving Ground—the only communications test facility of its kind in the Nation and probably unique in the world—appears headed for an all-Service role.

Electronic experts who participated in a press briefing here last week indicated that the Navy, Air Force, and Marine Corps likely would seek to use the facility.

A Marine Corps liaison officer reports to Huachuca in November. He probably will be followed by Navy and Air Force representatives.

Most unusual part of operations at Huachuca is the Electromagnetic Environment Test Facility, a huge outdoor test range, which began operations last July.

On this range, communications and

electronic equipment has been set up to simulate the equipment of a company size Army unit. By March 1962 it is expected to be capable of testing the communications problems of a battle group.

After five years and a total expenditure of \$90 million, the facility will be able to test the communications problems of a full field army.

Purpose of the range is to investigate and help eliminate the interference which occurs when large numbers of radio and other electronic devices are operated together within the area of the modern battlefield.

Data collected from the test facility is fed into an IBM 709 digital computer to integrate test results and help form an accurate total picture of the strengths and weaknesses of the communications net.

Emphasizing the importance of the

EETF, Proving Ground officials point out that during WWII the Army used 23,000 radio frequency transmitters in a 10,000 mile square area. Today, three times as many transmitters are used, in addition to a great amount of other Army, Navy and Air Force equipment which can jam radio operations.

The Electromagnetic Environment is operated by Pan American Airways with Bell Aerosystems as the major subcontractor.

An integrated part of the EETF is a Drone Test Facility, currently consisting of launch, control and recovery areas at Yuma Test Station, Ariz., and an oblong "racetrack" extending about 80 miles east of the station.

Instrumentation for the drone test facility is being extended along a 250 mile flight corridor between Yuma Test Station and Huachuca. The long corridor

provides an entrance to the Electromagnetic Environment Area, thus permitting newly-developed airborne electronic systems to be exposed to the electromagnetic environment of which they will eventually become an integral part.

As its name implies, the Proving Ground does little actual research work for the Signal Corps. The only major research activities here are the micro-meteorology studies conducted by the Meteorology Department.

Huachuca functions almost exclusively as a testing organization for all communications and signal equipment which will be used by the Army, and much equipment which will later be used by other Services.

It is primarily in the drone corridor and the Electromagnetic Environment facility that officials here expect large scale use by other Services.

Army Names 3715 For Major

No Navy Rated Officers Will Lose Flying Pay At Year's End; Efforts Continue To Obtain 500 Junior Aviators, Some From AF

THE Navy has made it known that no rated officer will suffer a loss of flying pay because of budget-imposed reductions which must be made before 31 December.

The Navy, which will be forced to cut its rated officer strength to 18,125 compared with a requirement for 18,651 rated officers, says that it will be possible to hit the year-end requirement exclusively by elimination of officers with 20 years of rated service.

Congress has authorized flying pay for officers who have 20 or more years of rated service.

Navy leaders hope that early next year, Congress will afford relief from the rated officer ceilings and will enact Accrual Pay legislation.

It was learned that the Navy, despite the requirement to cut rated officer strength, is going forward with its program to bring 500 junior officers on active duty in a rated status.

Discussions are being held with the

Air Force looking to the possibility of the Navy's obtaining some volunteers for inter-Service transfer from Air Force officers on active and inactive duty. They would be given special training to qualify them as carrier pilots.

The Navy has a requirement for an output of about 1900 new pilots per year

to meet manning needs for its 7200 operating aircraft.

Anxious to stimulate interest in naval aviation, the Navy hopes it will be possible to win approval for expansion of flying training in the NROTC program. At present, this is given at only two universities.

P.L. 810 Retirements Listed By Army

The Army has placed the following named National Guard and Reserve officers on the retired list upon their attainment of age 60 and completion of at least 20 years service as provided under Title III, PL 810, 80th Congress:

Maj General

Bettenburg, Philip C. NG

Colonel

Krasne, Leo R
Strohecker, S M, Jr
Hallenbeck, K L, NG
Jones, H L, 2d
Casper, Andrew F
Stellmann, Edward B
Bolton, J E, NG
Leichtner, John W

Frost, Millard I
Chaplin, Saxby
Jameson, Lloyd H
Volgenau, Elmer P
Sperry, H W, NG
Deevers, Charles L
Harris, Lloyd E

Kisner, Paul
Hogg, Harold K
Hutchinson, P C
Janssen, Herman G
Griffin, Royal M
Horton, Frank B

Lt Colonel

Kost, William L
Dovalosky, Charles R
Whipple, R S, NG
Cring, Kenneth W
Bouffard, U J, NG
Lind, James F

Isaard, Max C
Huber, Charles B
Tindall, John R
Chamberlain, R N
Cousins, Wallace I
Woods, Don E

McCauley, James D
Nelson, Harry A
Dieter, O A, Ch C
Sleator, Ralph W
Neville, Walter L
Howard, Thomas L

Major

Cox, Horace L
Chase, Volney A
Johnson, Edwin H
Nelson, Hedrick C
Nevitt, Thomas R
Bouffard, Charles J
Metz, Herbert H

Captain

Buffkin, J F, NG
Lovell, Samuel W
1st Lieutenant
Semkeo, Gevert
Drupiewski, J, NG
Botelino, Benjamin

2d Lieutenant

Watkins, H C, Jr
Farrington, Ferrell
Ryan, Francis A
LeGoulon, D W, NG
Tardiff, Roland A
Battaglia, Angelo J
Smart, Theodore T
Hutchins, Paul
Pulig, B A, Jr
McInnis, Richmond R, NG
Bralsted, Harry P
The following enlisted men were also retired under PL 810:
Morrison, M/Sgt Morris J
Moody, M/Sgt Henry B, NG
Kaiser, Sfc Aloysius C
Riddle, Sfc Curtis E, NG
Reinstein, Sfc Hyman, NG
McAllister, S/Sgt Thomas J R, NG

Births • Marriages • Deaths

(No charge for Service announcements. Please print all names.)

Born

ALONG—Landstuhl, Germany 26 Sep 1st Lt & Mrs William A Along, 526th FIS, APO 12, NY, daughter, Julie.

ANDERSON—Walson AH, Ft Dix 11 Oct Capt & Mrs P B Anderson, son, Mark Steven.

APPEL—Brooke GH, Ft Sam Houston, Tex 16 Oct 1st Lt & Mrs Bernard Appel, daughter.

ARENS—Cp Leroy Jonson, La 17 Sep Capt & Mrs James F Arens, daughter.

BATTAGLIA—Landstuhl, Germany 27 Sep Capt & Mrs John Battaglia, 9th Hosp Cen, APO 180, NY, daughter, Gabriella.

BENDALL—Lackland AFB, Tex 17 Oct 2d Lt & Mrs James R Bendall, son.

BONITO—Walson AH, Ft Dix, 11 Oct NJ Capt & Mrs Louis J Bonito, daughter, Nina Anne.

BRAZILL—Arlington, Calif 20 Oct Capt (USAF) & Mrs William Brazill, son of Mr & Mrs William Brazill, Middletown, RI, & of Mr & Mrs Daniel Freedman, 14 Holten Ave, Newport, RI.

CARDEN—Rodriguez AH, Ft Brooke, PR 18 Oct Lt (jg) (USN) & Mrs Ovelan R Carden, daughter, Cynthia Dawn.

CARPENTER—Patterson AH, Ft Monmouth, NJ 18 Oct 2d Lt & Mrs Ronald J Carpenter, 160½ Second Ave, Long Branch, NJ, daughter.

COGGINS—DeWitt AH, Ft Belvoir, Va 15 Oct Maj & Mrs Clyde A Coggins, Jr, daughter.

COMBS—Walson AH, Ft Dix NJ 12 Oct Capt & Mrs Albert E Combs, son, Eric Ray.

DANIELS—Walson AH, Ft Dix, NJ 11 Oct 1st Lt & Mrs Richard E Daniels, daughter, Margaret Rose.

DAVIDSEN—Vicenza, Italy 2 Oct 1st Lt & Mrs Donald R Davidsen, 727th USAF Disp, APO 293, NY, daughter, Karen.

DAVIS—Ft Ord, Calif 11 Oct 1st Lt & Mrs Charley B Davis, 225 Grove Acres, Apt 2, Pacific Grove, Calif, daughter, Julie Ann.

DAVIS—Ft McClellan, Ala 21 Oct 1st Lt & Mrs Robert B Davis, son, Russell Eric.

DAY—Landstuhl, Germany 22 Sep Capt & Mrs Arthur W Day, 30th Air Base, APO 130, NY, daughter, Holly.

DORMER—Brooke GH, Ft Sam Houston, Tex 15 Oct 1st Lt & Mrs John D G Dormer, daughter.

DUCKWORTH—Fitzsimons GH, Denver 15 Oct Capt (USAF) & Mrs Charles D Duckworth, son.

EIGEL—Brooke GH, Ft Sam Houston, Tex 19 Oct 1st Lt & Mrs Thomas J Eigel, daughter.

EPFS—Neubrucke, Germany recently, Capt & Mrs Maurice R Epfs, Jr, 522d QM Co, COMZ, APO 34, NY, daughter, Deborah.

EVANS—Fitzsimons GH, Denver 17 Oct Maj (USAF) & Mrs Robert E Evans, daughter.

FLEMING—Ft Rucker, Ala 19 Oct 2d Lt & Mrs Blaine T Fleming, son, Brian Thompson.

GENTRY—Keesler AFB, Miss 16 Oct Capt & Mrs Roy L Gentry, son, Kevin Lee.

GIMPLE—Ft McClellan, Ala 21 Oct Capt & Mrs Lloyd A Gimple, son, Timothy Paul.

GLORE—Keesler AFB, Miss 11 Oct 2d Lt & Mrs Warren L Glore, daughter, Carol Lynn.

GORDON—Walson AH, Ft Dix, NJ 14 Oct 1st Lt & Mrs Gerald C Gordon, daughter, Laura Anne.

GREEK—DeWitt AH, Ft Belvoir, Va 15 Oct Capt (USAF) & Mrs James R Greek, son.

HALLANAN—Ft Devens, Mass 18 Oct Maj (Army, USA) & Mrs George H Hallanan, Jr, 67 D Elm St, Ft Devens, 6th child & 3d son, William Kuper, grandson of Mrs Payne Williams & the late Col Williams. Maj Hallanan, asg to USASA TC & S, Ft Devens, is now attending C&GSC, Ft Leavenworth.

HARRIS—Walter Reed GH, Washington, DC 16 Oct 1st Lt & Mrs David F Harris, son.

HARMER—Fitzsimons GH, Denver 16 Oct Capt (USAF) & Mrs Jay F Harmer, son.

HAUPT—Patterson AH, Ft Monmouth, NJ 20 Oct 2d Lt & Mrs Kenneth C Haupt, 721 Greene Ave, West End, NJ, daughter.

HESSE—Vicenza, Italy 30 Sep 2d Lt & Mrs John L Hesse, 52nd, Enb Co, APO 221, NY, son, John.

HOLCOMB—Lackland AFB, Tex 10 Oct Lt Col & Mrs Thomas M Holcomb, daughter.

HOLLAR—Vicenza, Italy 3 Oct Capt & Mrs Richard B Hollar, daughter, Margaret.

HONEA—Travis AFB, Calif 7 Oct 1st Lt & Mrs Douglas C Honea, son.

HOUSE—Brooke GH, Ft Sam Houston, Tex 17 Oct Maj & Mrs Doyle F House, daughter.

HRUSKA—Ft Eustis, Va recently 2d Lt & Mrs Everett J Hruska, daughter.

KEAY—Landstuhl, Germany 28 Sep 1st Lt & Mrs Gilbert A Keay, 822 TMS, APO 130, NY, son, Patrick.

KELFER—Walson AH, Ft Dix, NJ 14 Oct Capt & Mrs Robert I Kelfer, son, Michael Scott.

KELLOUGH—Fitzsimons GH, Denver 17 Oct 1st Lt (USAF) & Mrs Larry R Kellough, son.

KENT—Keesler AFB, Miss 16 Oct 1st Lt & Mrs James E Kent, son, Gregory Allen.

KEUTMANN—DeWitt AH, Ft Belvoir, Va 14 Oct 1st Lt & Mrs John A Keutmann, son.

KILLETT—Vicenza, Italy 6 Oct 1st Lt & Mrs James L Killett, 202, Trans Co, APO 168, NY, son, Mark.

KINCAID—Travis AFB, Calif 7 Oct CWO-2 & Mrs James H Kincaid, son.

KJELDGAARD—Keesler AFB, Miss 10 Oct Miss 10 Oct 1st Lt & Mrs Louis D Kjeldgaard, son, Kevin Lawrence.

KIRK—Keesler AFB, Miss 11 Oct 2d Lt & Mrs David R Kirk, daughter, Diane Frances.

KNOUS—Travis AFB, Calif 16 Oct Capt & Mrs John G Knous, daughter.

LALLY—DeWitt AH, Ft Belvoir, Va 13 Sep Lt Col & Mrs John M Lally, daughter.

LANGSTON—Lackland AFB, Tex 12 Oct 1st Lt & Mrs Paul D Langston, son.

LANNING—Travis AFB, Calif 9 Oct Capt & Mrs Stephen E Lanning, daughter.

LIFSHEEN—Fitzsimons GH, Denver 21 Oct 2d Lt & Mrs Sheldon Lifshen, son.

ER.

Comptroller's Action

From first page—

switch from one pay computation meth-
od to another.

Under provisions of the Career Incentive
Act of 1955, their right to change
computation methods was ended effective
1 April of that year.

Following the decision of the U. S.
Court of Claims in the case of *Louis E.
Fagan, et al. (Lewis L. Govor, Plaintiff
No. 2) v. U. S.*, the Comptroller has
agreed with the Court that the right
to switch pay computation methods was
never terminated.

In a new decision (B-131700), the
Comptroller says that officers retired
prior to 1 October 1949 may in the
future switch between either of the
pay methods contained in Section 511
of the Career Compensation Act.

JOURNAL CLASSIFIED

For only 14 cents a word (\$1.40) minimum, you can reach a world-
wide audience through the classified advertising columns of the "Spokes-
man of the Services."

The Journal is the only weekly publication which covers all the
U. S. Armed Forces. This assures top caliber impact for your message.

Deadline for insertions is 5 p.m. on Tuesday. Payment must ac-
company insertions. Write: Army Navy Air Force Journal, 1710 Con-
necticut Avenue, Washington 9, D. C., in the Capital area, phone:
HOBart 2-1220 and ask for Mrs. Howard.

Army Daughters Get Salute

The Military District of Washington will hold a review in honor of the Daughters of the United States Army on Sunday, 6 November at 4:00 p.m. on the Parade Ground at Ft. Myer, Va.

Mr. Frank G. Millard, General Council of the Department of the Army, will represent the Secretary of the Army and Maj. Gen. A. D. Mead will represent the CoS. The 1st Battle Group, 3rd Infantry (the Old Guard), and the United States Army Band will parade.

There will be a reserve section of seats for Army daughters and families.

29 Oct. 1960 (Vol. 98, P. 257)

Army Navy Air Force Journal 27

U. S. COAST GUARD

Secretary of the Treasury—Robert B. Anderson
Commandant—Admiral Alfred C. Richmond

PRESIDENT Eisenhower has approved the temporary promotion of the following Coast Guard officers. Except where otherwise indicated, all will rank from 9 November.

To Commander

Evans, Raymond J, 10Oct

ASSIGNMENT CHANGES

COMMANDER

Clark, Bernard T, MIO, Toledo (SIM) to MIO, New Orleans (Duty).
Doe, Wilber S, MIO, Boston (Duty) to MIO, Toledo (SIM).

SIGNAL CORPS DIVISION CHIEFS

Three division chiefs have been appointed in the Office of the Army Chief Signal Officer.

Col. George W. Rhyne has been named Chief of the Personnel and Training Division, succeeding Col. W. B. Bess.

Col. W. D. Joslin is Chief of the Army Communications Systems Division, replacing Col. G. P. Sampson, assigned to the Defense Communications Agency.

Col. L. P. Jacobs succeeds Brig. Gen. Benjamin Pochyla as Chief of the Plans, Programs and Operations Division.

Colonel Rhyne had been a student at the Army War College, Carlisle Barracks, Pa. The Rhynes have three sons, George W., Jr., 18; Theodore L., 16; and Joseph C., 12. They reside at 306 Dalebrook Drive, Alexandria, Va.

Colonel Joslin was formerly Fourth Army Signal Officer at Ft. Sam Houston, Tex. He and his wife, Helen, live at 719 Moly Drive, Falls Church, Va. with three children: Laurie, Michael, and Robin Joslin. Their son, John, is a student at St. Mary's University, San Antonio.

Colonel Jacobs, formerly Eighth Army Signal Officer, Korea, is married to the former Miss Cogee Pauline Comer. They reside at 4605 North 17th Street, Arlington, Va. They have one daughter, Barbara Ann Wells (Mrs. Daniel), who also resides in Arlington.

Gowans, John J, CGAS, Port Angeles (Designated XO-Difot).
Slate, Lester E, CGAD, San Juan (Designated XO-Difot).

LIEUTENANT COMMANDER

Branson, Peter S, COMANCHE (CO) to COM WESTAREA (Assist. Oper. Off.)
Bunting, Stephen P, COMANCHE (Designated CO).
Dorsey, John M, CGD8 (mmt) to HQ (MMT).
How, Archibald B, Group, Sault Ste. Marie (XO) to HQ (PTP).
Wakefield, Thomas L, MIO, New Orleans (Duty) to CGD8 (mmt).

LIEUTENANT

Peters, Robert D, MIO, San Francisco (Duty) to CGD12 (mmt).

LIEUTENANT (JG)

Albert, Louis J, EASTWIND (Engr Trng) to ACUSHNET (EO).
Angus, Carl J, Home to CGAS, Port Angeles (Difot).
Beacham, Hope L, WALNUT (Duty) to CGD7 (RCC) amended to MIO, Miami (COTP).
Kaufman, Frederick W, CGD7 (dcr) to Home.
Lane, Carl L, CGD12 (RCC) to COMANCHE (XO).
Lawes, Robert B, CGAS, San Francisco (Difot) to Home.
McRight, James R, CGD7 (dcr) to NEMESIS (Duty).
Miller, Hugh D, ABSECON (Duty) to MIO, Miami (DOTP) amended to CGD7 (RCC).
Murnane, Edward L, Home to CGAS, San Francisco (Difot).
Nachtwey, Donald P, ACUSHNET (EO) to Base, So. Portland, Me (Duty).
Ross, Paul M, Jr, Home to CGD7 (dcr).
Wren, John C, Home to CGAS, Elizabeth City (Difot).

ENSIGN

Miller, James W, CHINCOTEAGUE (Duty to Engr Trng).
Schlavone, Eugene, Jr, HQ (ECV) to HALF-MOON (Duty).

WARRANT OFFICER

Thompson, Gene N, COTP, Seattle (Duty) to Home.
Cameron, W-2, Thomas O, WAL-189 (CO) to MISTLETOE.
Fuller, W-4, Ernest E, CGD7 (RCC) to Group, Norfolk amended to SWEETGUM.
Johnson, W-3, Millard W, St. Simons LBS (CO) to SWEETGUM—CANCELED.
Johnson, W-2, Ray E, WAL-513 (CO) to Base, Seattle.
Kindrick, W-1, Victor E, SEBAGO to Base, Ketchikan.

LOOK AHEAD!

Mr. Magoo says you can't afford to be near-sighted about cancer. Too dangerous. Too much to lose. Maybe your life.

Got to look ahead. Play it safe. Many cancers can be cured if detected early and treated promptly.

Be far-sighted. Have a health checkup every year. It could save your life.

AMERICAN CANCER SOCIETY

INDUSTRY IN DEFENSE

Tri-Service Program Is Launched For VTOL Transport Aircraft Prototype

The Army, Navy and Air Force have established a joint tri-service program directed toward developing a prototype of a vertical take-off and landing (VTOL) transport aircraft for operational suitability testing.

The program has been approved by the Acting Director of Defense Research and Engineering, John H. Rubel with the Navy designated to conduct the program.

The Chairman of the working group which formulated the program was Col. Robert R. Williams of the Army. The representatives of the Navy and Air Force were Capt. Harold H. Larsen and Col. Joseph W. Howell.

First step will be initiation of a design competition based on type specifications to be developed by the Navy in coordination with the Army and Air Force around the general characteristics recommended by the working group. The design competition will result in prototype VTOL aircraft which will be evaluated by agencies yet to be selected by the Military Departments.

Four-Year Effort

The program will be jointly and equally funded by the Army, Navy and Air Force over a four year period. The capabilities and counsel of NASA will be used whenever possible during the development program.

During the past several years the Army, Navy and Air Force have conducted projects in the VTOL field that have produced "test bed" type vehicles such as the Army's McDonnell XV-1 (compound helicopter), Bell XV-3 (tilt rotors), Vertol VZ-2 (tilt wing), Ryan VZ-3 (deflected slipstream), Doak VZ-4 (rotating ducted fan), Fairchild VZ-5 (vectored slipstream); the Navy's Kaman K-16 (combination deflected slipstream and tilt wing); and the Air Force's Ryan X-13 (vertical jet tail sitter), Bell X-14 (deflected vertical jet) and Hiller X-18 (tilt wing).

"Although these vehicles were strictly test and evaluation aircraft and were never produced in quantity, they have provided much technical information on the potential of VTOL aircraft," the Pentagon said.

The Defense Department statement

Martin Creates Electronic Dept.

Establishment of an electronic products department to develop new applications for weapon system components produced by The Martin Company is reported by John J. Slattery, General Manager of Martin-Baltimore's Electronics Division.

Carl F. Schunemann will head the new organization. He joined Martin after serving as Chief Engineer for Thompson-Ramo-Wooldridge Electronics in Cleveland.

The new department will market electronic components developed over the years by Martin for its weapon systems. Mr. Slattery said that "because Martin has been building missile systems longer and holds more missile prime contracts than any other defense contractor, it can provide a variety of use-tested electronic components and subsystems for application in other military systems."

Mr. Slattery's organization is part of Martin's Baltimore division, prime contractor for the Air Force's TM-76 MACE surface-to-surface missile systems and the Titan ICBM booster portion of the USAF Dyna-Soar manned space glider project. The new electronic products department also will offer components developed by Martin's Orlando and Denver divisions for the Air Force Titan strategic missile, Army Pershing ballistic missile, Lacrosse artillery-type missile, Navy and Air Force Bullpup air-to-surface missiles and the Army Missile Master air defense system.

continued:

Several extensive studies by the Services and Office, Secretary of Defense have been made on the application of VTOL aircraft to meet Service requirements and the forecast capabilities of future VTOL types. The United States aircraft industry has made a major contribution and investment in providing technical information for the Air Force SR 175 project and technical and operational analysis for the Army's Aircraft Requirement Review Board.

Detailed Review

"An Ad Hoc Group for Evaluation of V/STOL (Vertical and Short Takeoff and Landing) Aircraft, headed by Dr. Courtland Perkins, now Assistant Secretary of the Air Force for Research and Development, and sponsored by the Office of the Secretary of Defense, has provided a detailed review of the entire VTOL field.

"The studies made one point quite evident. The technical feasibility of the various approaches to VTOL aircraft has been thoroughly explored; however, the operational problems associated with these advanced types of aircraft remain highly speculative. Both the Perkins Committee and the Army Aircraft Requirements Review Board recognized this and recommended that operational research aircraft be developed to explore the operational problems such as effects of high down wash velocities, complexity of control, maintenance requirements, and capability to operate under various conditions of flight.

"The operational questions must be answered before realistic plans can be made and detailed requirements prepared by each of the three Services for advanced types of VTOL aircraft to perform specific missions. Although the specific requirements of the three Services for aircraft to perform their assigned missions may not be identical, the operational problems are sufficiently similar that one type of test and evaluation vehicle should provide answers applicable to each Service.

Chance Vought Plans Name Change; "Aircraft" Would Be Dropped From Title

CHANCE Vought Aircraft, Incorporated, the nation's third oldest aerospace company has asked shareholders to approve a new name—Chance Vought Corporation.

The word "aircraft" would be dropped to reflect the company's diversity more accurately, an announcement from Dallas headquarters stated.

"Diversification activities of the past two years have seen us outgrow our present name," according to President F. O. Detweiler. "Far from meaning that we intend to relinquish our position in the aircraft field, the name change simply means that our operations have expanded beyond the point where one product line is completely descriptive.

"Aircraft and its related activities continue to form the largest portion of our business, but the company now is functioning also in such significant and diverse fields as electronics, astronautics, industrial automation, business data processing, mobile homes, and missile and satellite range systems. The name Chance Vought Corporation will be more descriptive of our present business."

Firestone Makes Gas Masks

The Army Chemical Corps has awarded a \$6 million contract to The Firestone Tire & Rubber Company, Akron, for production of M-17 combat gas masks.

The first major change in mask evolution since 1947, the M-17 is designed to give respiratory protection against war gases, germ warfare agents and airborne radioactive fallout particles.

A major feature of the mask is that it does not have a protruding canister. The canister has been eliminated through the use of a newly developed light-weight filter material. Pads of this material are enclosed within cavities molded into the rubber facepiece of the mask.

Firestone made more than 8½ million masks for the Armed Forces during WW II and the Korean War.

Signal Supply Agency Change Of Command

BRIG. GEN. Charles Scott Hayes, right, the new Commander of the Army Signal Supply Agency, 225 S. 18th Street, Philadelphia, takes the command key from Brig. Gen. Elmer L. Littell, retiring after more than 30 years of service. General and Mrs. Littell will make their new home in Kissimmee, Fla.

General Hays had been Signal Officer of the 8th Army, U. S. Forces, Korea, and United Nations Command.

At the change of command ceremony, General Hays introduced his wife, Jayne Elizabeth, and son, Scott Edward. They make their home at 46 Beaverdale Lane, Levittown, N. J.

Navy Orders P3V-1 Lockheed Electras

The Navy has awarded a \$53.3 million contract for additional production of P3V-1 aircraft to Lockheed Aircraft Corporation.

A derivation of the commercial Electra design, the P3V-1 is the Navy's first turboprop submarine hunter-killer aircraft. It is designed to strike with depth charges, torpedoes, special weapons and rockets.

QUICK SNOOP:

New Army Drone Will Hit Mach 1.9

FT. HUACHUCA, ARIZ.

THE Army will break the supersonic surveillance barrier with its SD-5 drone under test here at the Electronic Proving Ground.

Displayed during a press tour, the Fairchild SD-5 jet propelled drone, loaded with 450 pounds of sensor equipment, will be capable of speeds up to Mach 1.9. This is almost twice the speed of sound.

The SD-5 has made several test flights along the Proving Ground's Drone Test Facility.

Scheduled for testing in the near future is another jet surveillance drone, Republic Aviation's SD-4. This will be used by Army Corps commanders.

The only surveillance drone now in the hands of Army combat troops is the propeller-driven SD-1, manufactured by Radioplane Division of the Northrop Corporation. This drone carries between 50 and 71 pounds of sensor equipment at speeds up to 180 knots.

Now under test here, the propeller-driven SD-2 drone will carry 150 pounds of sensor equipment at speeds up to 300 knots. This surveillance drone, manufactured by Aerojet-General Corporation, will eventually replace the SD-1 in the field. The SD-2 is the first Army drone originally designed for combat surveillance.

The drones, destined to be the "eyes and ears" of the modern Army, are tested here by the Proving Ground's Combat Surveillance and Avionics Department, headed by Col. Roy F. Blackmon. Chief of the Department's Drone Division is Maj. John F. Wood, jr.

Northrop Target Missile Sets Record

A new target missile altitude record of 72,500 feet has been established at the White Sands, N. M., Missile Range during an Army operational and evaluation program.

An RP-76 rocket-powered target missile produced by Radioplane, a Division of Northrop Corporation, launched from an F-89 carrier aircraft, has blasted the target missile altitude record of 61,800 feet established in 1959 by another RP-76.

A maximum speed of Mach 1.03 was attained while climbing at the rate of over 10,000 feet per minute—a vertical ascent of over 100 miles per hour.

Currently in use as a training target for Nike Hercules and Ajax missile crews at Ft. Bliss, Tex., 700 RP-76 target missiles have been contracted for by the Army. The contracts also provide for a complete Radioplane furnished flight services program and for maintenance and repair of the targets.

Jorgensen Joins Hallicrafters

Robert W. Jorgensen has joined The Hallicrafters Company, Chicago electronics development and manufacturing firm, as Manager of Market Development. He had been a management consultant with the firm of Booz, Allen & Hamilton, Chicago.

Lockheed Gets \$181 Million More To Speed 2500-Mile Polaris Program

THE Navy has awarded Lockheed Missiles and Space Division at Sunnyvale, Calif., \$181 million to speed work on a 2,500-mile Polaris—double the present range.

This brings to approximately \$608 million funds awarded to Lockheed for Polaris research and development since 1956, according to Herschel J. Brown, Lockheed Vice President and General Manager of the Missiles and Space Division.

Prior to 1 July 1960, the Navy had awarded Lockheed \$490 million for production of flight test vehicles and initial orders of tactical Polaris missiles and associated hardware. Miscellaneous supporting services such as training of Navy personnel and technical management of the Navy's Polaris final assembly and issuing facility accounted for another \$5.5 million.

Additional fiscal 1961 contracts for operational missiles, for flight test vehicles to implement the longer-range development program and for supporting services are not yet finalized, but are expected to be substantial, Mr. Brown said.

Captain Bull of Navy Joins Hoffman; Chaplain Carpenter of AF Gets Delaware Pulpit

Capt. William I. Bull, USN-Ret., has been appointed Assistant to the President for Semiconductor Operations at Hoffman Electronics Corporation, Los Angeles. President H. Leslie Hoffman said he will assist the Division General Manager, Dr. Morton B. Prince, in developing and maintaining procedures and programs, will also be responsible for coordinating the activities of the Semiconductor Division with those of the company's Science Center and Military Products Division.

Captain Bull, USNA '32, last served as the principal electronics officer for the Bureau of Ships. Prior to that, his assignments included command of the Charleston, S. C., Naval Shipyard, and Assistant Chief of the Bureau of Ships for Electronics. He holds a M.S. degree in communications engineering from Harvard University and completed advanced management training work at the Harvard Business School.

Col. Milan G. Weber, USA-Ret., formerly Deputy Commander of the Army Air Defense Command 2d Region, Ft. Meade, Md., has accepted a position as Engineering Representative in the Washington, D. C. area for the Loral Electronics Corporation of New York City. Colonel and Mrs. Weber, the former Mary Agnes Keller of Kansas City, Mo., and their son, Milan G., Jr., 13, will reside at 2500 North Fillmore Street, Arlington, Va.

Chaplain (Col.) Charles I. Carpenter, will retire from the Air Force 30 November to take up a civilian pastorate at the Avenue Methodist Church in Milford, Del. As a Major General, Chaplain Carpenter served as the first Chief of Air Force Chaplains from 1949 to 1955, when he assumed his duties as Protestant Cadet Captain at the U. S. Air Force Academy.

Col. R. Ernest Dupuy, USA-Ret., and his son, Col. Trevor N. Dupuy, USA-Ret., are the authors of "The Compact History of the Civil War," which will be published by Hawthorne Books 11 November. Colonel Trevor Dupuy, USMA, '38, is a

visiting professor at the University of Rangoon, Burma. The Dupuys have also collaborated on three other books: "To the Colors," "Military Heritage of America," and "Brave Men and Great Captains."

The 448-page volume contains an appendix, bibliography and index, and will be priced at \$6.75.

General A. C. McAuliffe, USA-Ret., Vice President and General Manager of the Engineering and Construction Division of the American Cyanamid Company, will

head the Drugs and Chemicals Division of the USO's campaign in New York City.

Col. Edward H. Connor, USA-Ret., who retired from the Army as C. O., Seattle Port of Embarkation in 1954, is again retiring. He has been Director of Civil Defense for Seattle and King County for the past six years and is retiring from that position 31 October.

Maj. Thomas V. Coleman, USA-Ret., 39, has been named Microwave Engineer at Television Associates, Inc., an electronics company in Michigan City, Ind.

Lincoln Visits the Troops: President Abraham Lincoln is shown during a routine visit with Union officers, at undisclosed location. This is one of the famous Lincoln photographs by Matthew Brady and Alexander Gardner.

Hill Pay Expert Forecasts Action

From first page—

be a reevaluation of benefits for survivors of those on the retired lists who die of non-Service connected disabilities.

The Texas legislator said that the dual compensation statutes must be adjusted more equitably.

As to changes in retirement policies, Representative Kilday took the position that Regular officers should be allowed to apply for retirement after 20 years service. He said that the officer who plans to stay for 30 years service considers the 20-year retirement as a form of insurance, and added that the program is valuable for both the Government and the individual. "I do not feel this regulation will ever be changed," Mr. Kilday said.

It was Mr. Kilday's Subcommittee which cleared the Pay Equalization bill for unanimous passage by the House during the last session of Congress. Because the January meeting will mark a new session, the bill must clear both the House and Senate before it can go to the President.

The big question remains what position will be taken by Senator John Stennis (D-Miss) of the Senate Armed Services Committee. He blocked action on the bill in the 1960 session, and has called for a study of military retirement by a civilian organization. How long that survey will require is not yet known.

Some members of the Senate, notably Senator Leverett Saltonstall (R-Mass) have expressed the hope that the Senate would have information by 1 February on which to take action on Pay Equalization. It will be surprising if that target is met.

Both Vice President Richard M. Nixon and Senator John F. Kennedy have expressed support for Pay Equalization.

M/G Biddle Retires

Maj. Gen. William S. Biddle, Fifth Army Deputy CG for Reserve Forces, retiring after 37 years' service, will be succeeded by Maj. Gen. Lloyd R. Moses, former 8th Infantry Division CG in Germany on 15 November.

General Biddle, USMA '23, was Senior Member, U.N. Command Components Military Armistice Commission, and Special Assistant for Armistice Affairs, Headquarters U.N. Command/U. S. Forces Korea, in Seoul, Korea, until late in 1959.

...in the finest tradition of service

The President of the United States, a civilian, is Commander-in-Chief of the Armed Forces of the United States. This important concept of freedom is one to which succeeding generations of servicemen have added renewed significance and strengthened tradition.

But while the ultimate decision lies with the President, the "can do" has always been the province of the American serviceman. We of Federal Services are ever mindful of the "men in the field." Our founders and many of our staff today were such men. Our purpose is to serve the needs of those who serve the nation.

"Paul Revere" System Proves Effective In England

From page 9—

vair T-29 for radar and navigation training and Douglas C-47s for liaison and utility.

The 420th is equipped with KB-50s. The KB-50s, developed from the Boeing B-29, are powered with two jet and two piston engines. They are operated by a six-man crew and can refuel three of the B-66s at one time using the probe and drogue system. It also is available to provide in-flight refueling for all USAF units. Support activities are accomplished by the 47th Support Group,

commanded by Col. Frederick F. Bronson.

Colonel Dempster insists that every flight of a B-66 must be a combat training mission. "There is no point in boring holes in the air," he says. When his bombers leave Sculthorpe they have a full schedule of training in which they exercise all of their capabilities from bombing (usually with electronic scoring), to refueling and self-defense, plus navigating over a tortuous course. During the recent NATO exercises they participated in both SACEUR's Flash

Back and SACLAN's Sword Thrust, providing the all-weather bomb capability for the aggressor forces. The 47th also is closely tied in with RAF activities and conducts exercises with them daily.

an alert the bell rings in every building on the base and the "Paul Revere" system goes into effect to bring in the men who live off the base. The "Paul Revere" system is a pyramiding operation whereby the base calls designated area wardens who in turn contact group leaders who route out the individuals.

In spite of the fact that 1,650 officers and crewmen must live off the base because of the housing shortage and that their quarters are up to 35 miles away involving a total driving of 40,000 miles away, the Paul Revere system is astonishingly well organized and effective. From the time of the first alarm when the alert aircraft are off on their missions until the last crews are on the base only an average of 45 minutes elapses.

Safety is another of Colonel Dempster's points of emphasis, and it has paid off with a number of awards. Already this year the Wing has been cited for the Air Force's semi-annual Flying Safety

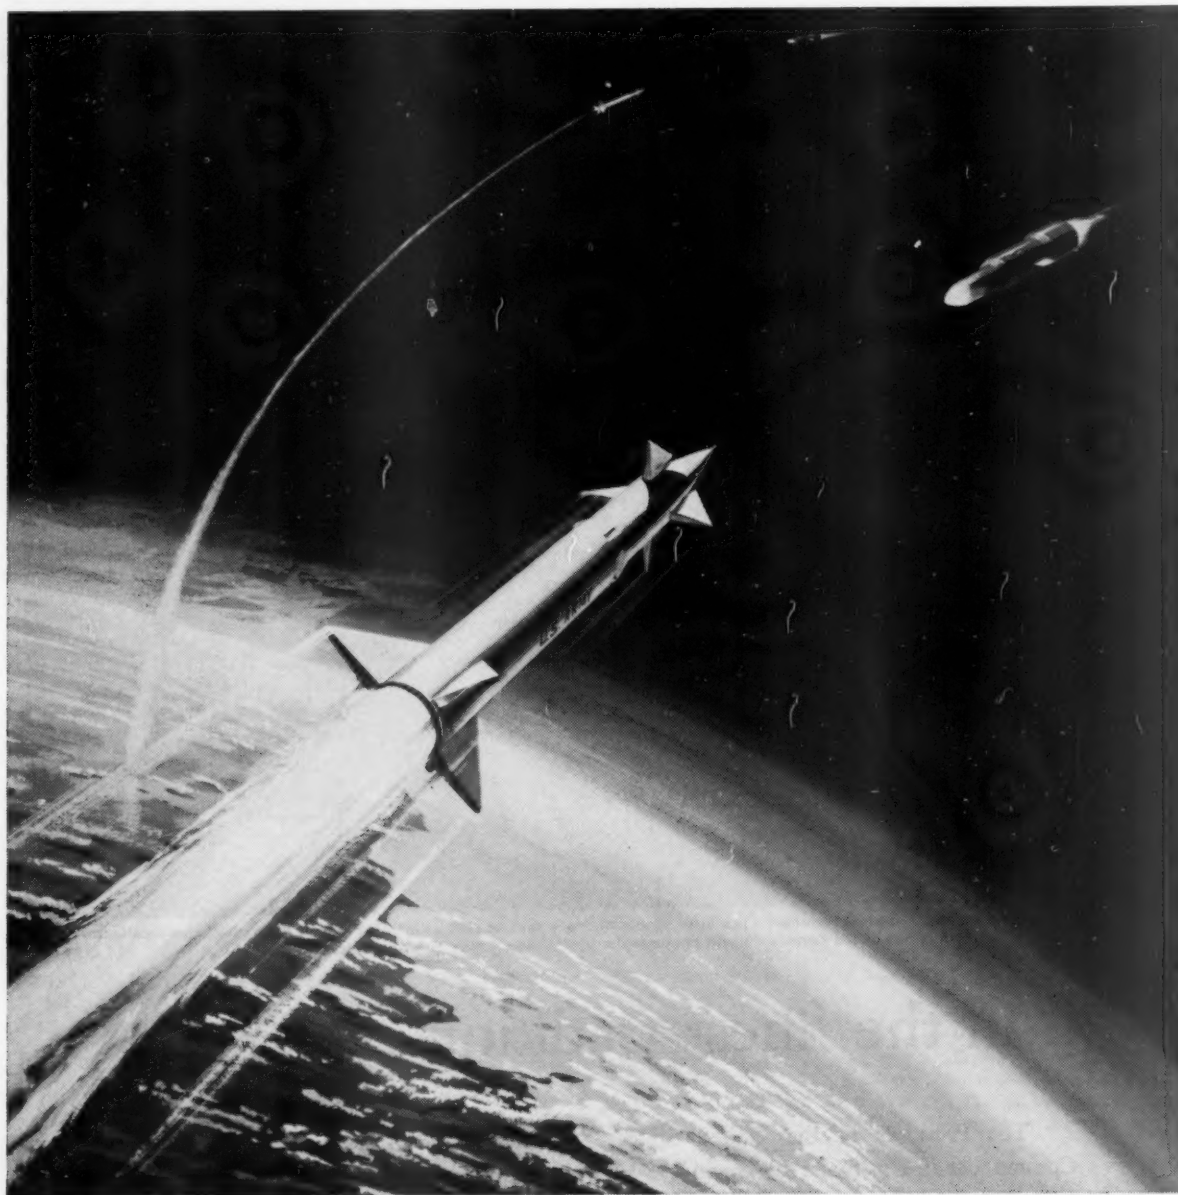

Col. Dempster

Plaque. The 86th Bomb Squadron, commanded by Lt. Col. Raymond Fulton, set an all-time safety record for the big base when they passed the 15,000th flying hour without an accident.

A most detailed system of maintenance control keeps the 47th aircraft at top readiness. A Work Load Control Center, always manned, knows the status of maintenance of every part of every aircraft at all times and exercises continuous control. This monitoring starts the minute an aircraft lands and is checked and controlled from the center every minute until the aircraft is again operationally ready. A 30-day scheduling center also projects maintenance into the future so that Colonel Dempster can know at any minute just where every aircraft will be in its maintenance cycle every day for the next month.

Col. George H. Kneen, Jr., is the Deputy Wing Commander. In WWII he served 37 months in the European and Mediterranean Theaters flying Martin B-26s. He came to England after four years in Intelligence activities at the Pentagon.

Colonel Dempster served in WWII in Alaska and then in Europe. In May of 1958 he led the second increment of B-66s from Florida to Alconbury—the first non-stop transAtlantic refueling operation involving the B-66 carried out by a USAF unit based in Britain. He lives on the base with his wife, Helyn Elizabeth, and their four children.

With its tremendous thrust, Zeus can intercept attacking missiles far from the area it defends

Zeus is designed for a hit every time on supersonic bull's-eyes!

At best, an anti-missile defense will have only a few minutes to react ... and no "second barrel" to fire at its supersonic target.

Nike Zeus needs none. Tests of this new anti-missile missile show that it will attack enemy ICBM's with 100% accuracy at a distant interception point. There its nuclear warhead will be detonated to blanket

the approaching ICBM with an explosive curtain.

The newest member of the famous Douglas Nike family, Zeus was developed in a joint Western Electric, Bell Telephone, Douglas Aircraft project. Its design combines the most successful lessons learned from Ajax and Hercules—Nike Zeus predecessors that are on duty around

many important U.S. cities and industrial centers and with NATO forces overseas.

Col. Jacobson Heads ARDC Information

Col. Richard K. Jacobson is the new ARDC Director of Information at Andrews AFB, Md.

Former Deputy Chief of ARDC's Command Policy Office, he succeeds Col. William S. ("Pug") Evans, who assumed new duties as Assistant Director of Information, Office of the Secretary of the Air Force.

Colonel Jacobson, a former project officer for the Thor IRBM, earned a Bachelor of Science degree at Howard College, Birmingham, Ala., and a Master's degree at the Massachusetts Institute of Technology. He is also a graduate of the Command and Staff College.

AF Selection Results

From page 8—

selected from 9 in the basic zone; 1 from 3 in the secondary zone; 6 passovers.

Dental—To colonel, 11 selected from 117; to lieutenant colonel, 65 selected from 78 in primary zone; 7 from 35 in secondary zone; 13 passovers.

Medical—To colonel, 14 selected from 72 considered; to lieutenant colonel, 16 selected from 22 in primary zone; 2 from 28 in secondary zone; 6 passovers.

Chaplains—To colonel, 5 selected from 90 eligibles; to lieutenant colonel, 24 selected from 45 in the primary zone; 2 from 95 in secondary zone; 6 first passovers, 15 second passovers.
